NO. 44

THAW CASE RESTS UNTIL TO-MORROW

Presentation on Habeas Corpus Writ Delayed by Consulting Counsel

TO PERFECT DEFENCE BEFORE APPEARANCE

Montreal Lawyer Added to Legal Company Appearing for Prisoner

RACING CAR DRIVER NOW UNDER ARREST

Albany, N. Y., Aug. 21.—Acting-Governor Glynn was advised over the telephone by the immigration authorities at Ottawa this afternoon that they would use every effort in their power to assist in having Harry K. Thaw returned to New York state.

Mr. Glynn's telegram requested that Thaw be turned over to District-Attorney Conger, who is now in Sherbrooke representing the state of New York. The immigration department is prepared for legal resistance by Thaw of its plan to deport him. In this the department believes he will be unsuccessful.

Sherbrooke, Que., Aug. 21.—After an all-night conference counsel for Harry K. Thaw announced this morning that they would not produce the Mattewan fugitive in the Supreme court to-day on the writ of habeas corpus obtained yesterday.

They explained that the writ is returnable at any time and although 10 o'clock to-day had been tentatively agreed upon, they had decided to delay proceedings pending further conferences. According to present plans they will use the writ to-morrow. This morning the writ was refused by the court. The writ was refused by the court. The writ was refused by the court.

J. Greenhalgh, of Montreal, an eleven-hour addition to the Thaw lawyers, pointed out that the writ was returnable at any time and although 10 o'clock to-day had been tentatively agreed upon, they had decided to delay proceedings pending further conferences.

The move came as a surprise to the immigration officials, who had expected that Thaw would be arraigned before noon to-day, released on the present commitment, then held as an undesirable alien and quickly deported. As matters stood this forenoon, indications were that this programme had simply been put off a day. With Thaw once in the hands of the immigration authorities, opinion varied as to what course would be followed.

One version had it that he would be returned to Coaticook, where he was arrested on Tuesday, and from there deported, if he were proved an undesirable alien, to the nearest border point in Vermont or New Hampshire. Another theory advanced was that counsel for Thaw would attempt to show that he had a through ticket to Detroit and would demand that he be taken there and released. A third contention was that the whole proceedings would be transferred to Montreal, where the case would go before a special board of inquiry.

Feverish and worried, Thaw dressed before sunrise and received Mr. and Mrs. Carnegie as his first visitors. Though apparently cheered by their arrival, their presence seemed to make him more secretive than ever regarding his escape.

Thaw's fellow-prisoner, who describes himself as Mitchell Thompson, but who has been identified as Roger Thompson, driver of the black racing car which carried Thaw away from Mattewan, remained silent in his cell. Charged with violating the Canadian immigration laws in assisting a lunatic to cross the border, Thompson was unable to furnish the \$500 bail required and must stay in his cell until Friday, when he will have a hearing.

Chavendish, Vt., Aug. 21.—It appears to-day that Harry K. Thaw entered Canada from Vermont, and not directly from New Hampshire, as had been supposed. The village of Beecham Falls, where he left the train, is on the Vermont side of the boundary line between the states.

EMIGRANT TRAVEL

London, Aug. 21.—Up to the end of July 24,000 emigrants left the United Kingdom for the overseas dominions. Excessively among the steamship offices show that practically all first and second-class berths are full for the next five weeks, but there is considerable decrease in the demand for third-class accommodation.

MURDER BANK CASHIER.

Hamburg, Aug. 21.—Two automobile bandits this morning visited the Commercial Savings Bank at Wilhelmshagen, a suburb, murdered the cashier and escaped with a satchel full of banknotes and several thousand dollars in currency.

FOSTER PRESENTS MEN'S SIDE OF STRIKE CROTHERS DECLINED TO INVESTIGATE GRIEVANCES

CLAIMS ONE-SIDED DEAL IN FAVOR OF STRIKE-BREAKERS—CALLS ARRESTS ON MONDAY NIGHT HIGH-HANDED AFFAIR

Cases Against Strikers Won in Higher Court; Company Official Alleged to Have Ordered Specials to Ride Men Down and Shoot

Trial of Menzies and the Second Accusation; Charges Special Police With Insulting Men and Women; Arrest of Place; Prisoners, Crowding Jails

Nanaimo, Aug. 21.—That the reports so far published in the daily newspapers respecting the industrial warfare waged at Nanaimo have not been entirely fair to the miners, is the claim made by Robert Foster, district president of the United Mine Workers of America. The Times has obtained from him the first official statement of the men's views of the events which have transpired. The statement, while in itself to a great extent a review of events already chronicled, illustrates the view point of the strikers.

"The present situation is the biggest farce which has ever been precipitated by the government of a civilized country," declared Mr. Foster. "From the beginning of this lockout our organization has asked only that the mining law of this province be enforced, but the McBride government has refused to take any action, as it could have done under the Public Inquiries Act if it had wanted to."

"Strike-breakers have assaulted and insulted our men on numerous occasions, yet it is almost impossible to have any of them arrested. When arrests were made on a very few occasions the men got off with small fines, or in most instances the charges were dismissed entirely. When our men were arrested on similar charges they were fined sums ranging from \$25 to \$75. To get justice in our cases we were compelled to go to the expense of certiorari proceedings in the Supreme court, and in every case where we did so we won, and the prisoner discharged. We are just about tired of spending money on these cases when we have no protection in the ordinary courts."

Specials With Company.

"A member of our union was set upon and stabbed by four strike-breakers at Ladysmith. The police refused to arrest more than one man. Chief Constable Pallant made the statement to our men, 'You are beat; we are not with you. We've got all the men we need and we are not going to be dictated to by you.' There is considerable openly taking sides with the company."

"Notwithstanding the fact that our man pointed out the men who attacked him, Pallant still refused to arrest them. He said that he would summon them, but this was no case for a summons. I received a wire about the case and went down to Ladysmith Monday morning on my way to Victoria with the intention of taking up the matter with the attorney-general. When I landed, however, the police were ready to do anything. Now if there were charges against these men when I appeared why were not these charges just as good at first, instead of permitting two days to elapse during which the men could easily have escaped?"

Charges of assault with intent to do grievous bodily harm against all three were laid, but when Arthur Leighton, our solicitor, arrived he changed the charge to attempted murder. The four men appeared before Magistrate Stewart and were remanded.

"The mine workers went on with their picketing as before with instructions that they were to observe strictly the law of self-defence in case of a fight."

Marched to Protect Men.

Referring to the march of the strikers from Nanaimo to Extension, Mr. Foster said that word was received in Nanaimo that six men had been shot. "Our men marched out from here to protect their fellow-citizens and we are proud of them for doing so. The men at Extension were walking around doing their picketing as usual. On that day the Extension mines were idle for the first time since they began to be operated with scab labor. What they were idle for I don't know, unless it was part of a scheme to drive out all the strikers. Why should these strike-breakers have arms and ammunition in the mines if it was not part of a scheme to drive out the pickets? And the way they started shooting from the mouth of the mine makes it seem more that way than ever."

"This man Baxter who was shot was not a miner, but a contractor who went down from Nanaimo out of curiosity. He was doing no harm when he was shot, but was merely looking around. Yet the authorities are not trying to find out who shot him. Nobody was arrested, though they know the bullet came from the mouth of the tunnel where the strike-breakers were hiding. All those men afterwards left their cover protected by the soldiers, but no arrest has been made for the shooting."

Denies Ill-Treatment.

"The houses that were burned at Extension were fired by the strike-breakers themselves who were panic-stricken after the stabbing at Ladysmith. They fancied the strikers were going to seize them and chose this way of getting ahead of us."

"These stories about our driving the women and children to the woods for shelter are absolute falsehoods. As a matter of fact the strikers assisted the women and children to get out of range of the bullets from the tunnel where the strike-breakers were constantly shooting."

Reverting to the situation in Cumberland Mr. Foster went back to July 15.

"On that date," he said, "the strike-breakers sent word to the union men that they were getting ready to come down and clean out the few remaining strikers who remained in town. This assembly on August 15 and were remanded without plea, bail being asked and refused in each case. Mr. Shoebottom said that in no case was bail granted to a suffragette in the Old Country, and the cases, he argued, were parallel in this respect. Mr. Darling asked that a special inquiry be made respecting the eldest Greenwell, as he was a sick man, and Mr. Shoebottom promised that bail would be granted if the jail physician at Victoria held that incarceration would impair his health. In cases of this sort the prosecutor declared his willingness to take a humane stand. Michael Franderger, Henry O'Connell, C. Rice, Louis Munchat and J. D. Ross, of South Wellington, were remanded similarly on charges of participating in an unlawful assembly on August 12. The charge of attempted murder was brought against a lad of 19 named E. Morris, of Extension, and he was accused of shooting at J. John, on August 12. There was no variation in the proceeding, the lad withholding election as well as plea for the eight days. Chief Constable Stevenson, of Nanaimo, laid the charge."

Mr. Darling asked if the charge of shooting Baxter had been brought up yet, and the prosecutor stated that it would be dealt with by the authorities in due course.

W. Bowater, Jr., is a lad of 17 years, and he too, will have to face a more serious charge. Mr. Shoebottom gave notice that he would be charged with riotous destruction, an information having been laid to that effect. Henry O'Connell, of South Wellington, is another man who has other charges to face. Mr. Darling complained to the court that two of his clients had been arrested and had not been given a hearing yet. Mr. Shoebottom replied that some of them had not answered to their names in the cells when they were called. The cases of Archie Greenwell and Emil Fogelin will come up this afternoon if those individuals can be found in the jail.

Hon. Dr. Young was seen about the Windsor hotel last night, but denied that his presence had anything to do with the strike. He said he was going on to Courtenay in the morning to meet Messrs. Manson and Clemence and would return with Mr. Hazen from Alberni to-morrow.

Monday's Night's Meeting.

"The conduct of Monday night's meeting to ratify the Jingle Pot agreement was a most high-handed proceeding which was unjustifiable from any point of view. On entering the meeting International Representative Farrington and I were informed that Col. Hall had given orders for the hall to be cleared in two minutes, or he would shoot or bayonet every man in the house. Here were 1,200 men met together to ratify an agreement to end the strike, and they were told to get out of the hall in two minutes. Could anything be more likely to promote disorder. In my opinion Col. Hall just wanted to precipitate a fight in order to justify the presence of the militia here at all."

"Then he changed his mind and gave us an hour, and later still we could get out of the hall."

NINETEEN CHARGES READ AT NANAIMO

One Attempted Murder and Eighteen Participating in Unlawful Assembly

PARALLEL CASES TO BRITISH MILITANTS

Nanaimo, B. C., Aug. 21.—One charge of attempted murder and 18 charges of participating in an unlawful assembly were read in police court this morning before Magistrate Simpson, at Nanaimo, against residents of Extension and South Wellington. Clarence Darling appeared for all the accused and asked bail, but was in each case refused. Crown Prosecutor Shoebottom pointing out that the only object of bail was not the procuring of attendance at the trials.

All 18 men were remanded for eight days to the county jail at Victoria and left there on the afternoon train with 24 others in charge of a cordon of troops and special constables. Mr. Shoebottom pointed out that the move was absolutely necessary as the Nanaimo county jail was overcrowded. Mr. Darling endorsed the step heartily as the men have been complaining of the poor accommodation. L. S. Fairhurst, T. Greenwell, R. Struthers, J. S. Greenwell, W. Bowater, John Anderson, John Gilmore, C. Murray, J. Sherwood, D. Gilmore, W. Bowater, Jr., E. Shoebottom, and Isaac Greenwell all of Extension, were charged with unlawful assembly on August 12 and were remanded without plea, bail being asked and refused in each case. Mr. Shoebottom said that in no case was bail granted to a suffragette in the Old Country, and the cases, he argued, were parallel in this respect. Mr. Darling asked that a special inquiry be made respecting the eldest Greenwell, as he was a sick man, and Mr. Shoebottom promised that bail would be granted if the jail physician at Victoria held that incarceration would impair his health. In cases of this sort the prosecutor declared his willingness to take a humane stand. Michael Franderger, Henry O'Connell, C. Rice, Louis Munchat and J. D. Ross, of South Wellington, were remanded similarly on charges of participating in an unlawful assembly on August 12. The charge of attempted murder was brought against a lad of 19 named E. Morris, of Extension, and he was accused of shooting at J. John, on August 12. There was no variation in the proceeding, the lad withholding election as well as plea for the eight days. Chief Constable Stevenson, of Nanaimo, laid the charge."

Mr. Darling asked if the charge of shooting Baxter had been brought up yet, and the prosecutor stated that it would be dealt with by the authorities in due course.

W. Bowater, Jr., is a lad of 17 years, and he too, will have to face a more serious charge. Mr. Shoebottom gave notice that he would be charged with riotous destruction, an information having been laid to that effect. Henry O'Connell, of South Wellington, is another man who has other charges to face. Mr. Darling complained to the court that two of his clients had been arrested and had not been given a hearing yet. Mr. Shoebottom replied that some of them had not answered to their names in the cells when they were called. The cases of Archie Greenwell and Emil Fogelin will come up this afternoon if those individuals can be found in the jail.

Hon. Dr. Young was seen about the Windsor hotel last night, but denied that his presence had anything to do with the strike. He said he was going on to Courtenay in the morning to meet Messrs. Manson and Clemence and would return with Mr. Hazen from Alberni to-morrow.

Monday's Night's Meeting.

"The conduct of Monday night's meeting to ratify the Jingle Pot agreement was a most high-handed proceeding which was unjustifiable from any point of view. On entering the meeting International Representative Farrington and I were informed that Col. Hall had given orders for the hall to be cleared in two minutes, or he would shoot or bayonet every man in the house. Here were 1,200 men met together to ratify an agreement to end the strike, and they were told to get out of the hall in two minutes. Could anything be more likely to promote disorder. In my opinion Col. Hall just wanted to precipitate a fight in order to justify the presence of the militia here at all."

"Then he changed his mind and gave us an hour, and later still we could get out of the hall."

MINISTER OF LABOR ASKED UNION TO RETURN TO WORK—WAS CHALLENGED BY LEADER ON ASIATICS AT CUMBERLAND

Over Hundred and Fifty Instances of Violations of Law Submitted to Crothers; Six Deaths Resulted From Employment of Uncertificated Men

Strikers Informed Arrest Was Their Due for Walking Out May 1 Without Complying With Lemieux Act; Strike Will Be Continued Indefinitely

Nanaimo, Aug. 21.—"Sir Richard McBride has stated that the minister of labor is coming out here again to make another attempt to settle this strike, and that this time he will succeed," said Robert Foster, district president of the United Mine Workers of America, to a Times reporter. "The minister of labor is our only hope in the way of official intervention, but Mr. Crothers will have to go about things differently this time from the way he went about it a few weeks ago if he intends to accomplish anything. Every statement we made to him he said he did not believe, and he declined to investigate our grievances. He announced that he had not time to say and settle the strike, but I want to tell what really happened when I met him."

Conditions at Cumberland.

"We asked him to enforce the laws of British Columbia. He urged us to give in, saying that the Canadian Collieries had 1400 men at work in Cumberland and were getting back to their normal output."

"Now, I have a man stationed at Union Bay who has been working there for 44 years and knows every boat and the size of its shipment. The shipment last week was only 5,748 tons, while the Canadian Collieries and Mr. Crothers claim the output is 12,000 tons. Where is the rest of the coal going if they are right?"

"I made the proposition to Mr. Crothers that if he would call a board of examiners as provided for by the Coal Mines Regulation Act, and consisting of a representative of the United Mine Workers of America, one of the operators and the minister himself, and that if one half of that 1400 men could answer the questions they are called upon to answer by the act I would call off the strike and the organization would quit Vancouver Island forever."

Minister Challenged.

"He said he didn't believe the companies would do it and refused to investigate."

"I then brought up the question of Asiatic labor. He said there were no more Asiatics in the mines than at the time of the lock-out. Again I challenged him. I told him that he had the power to inspect the mines and asked him to take me with him, and if there were not twice as many Asiatics as there were at the time of the lock-out, I would call off the strike."

FIRST TEST OF ALIEN LAND LAW IS PLANNED

Wealthy Japanese Starts Action Against California Act at Los Angeles

Los Angeles, Aug. 21.—The first test of the constitutionality of the California alien land law will be begun here within the next few days by H. Taniguchi, a wealthy Japanese, according to his attorney, H. A. Chamberlain. Taniguchi desires to transfer 200 acres of land to fellow-countrymen for agricultural purposes. Because the law provides that aliens not eligible to naturalization cannot become possessed of real property within the state, Taniguchi directed Attorney Chamberlain to secure an interpretation from the United States courts as to its constitutionality. Chamberlain said he would carry the case to the federal supreme court if necessary.

atics at work in the mines as there were when the last minister of mines' report was made I would call off the strike and withdraw the organization from the island.

"He didn't believe the companies would do it, and he refused to investigate."

"The only proposal he made was that we form a Canadian organization, and he said the companies were willing to recognize it."

Six Men Burned.

"We submitted for his perusal over 150 specific instances of violations of the law, and he said he did not believe us. During Mr. Crothers' visit one of the very men we were kicking about who had no certificate burned himself and six others, and the following day three more were burned, all lighting gas, showing that they were not qualified to work in the mines. Out of the six deaths recorded in the Minister of Mines' report not one held a certificate, although were working at digging coal."

"Mr. Crothers told us we could all have been arrested for walking out May 1 without complying with the Lemieux Act. We pointed out that the Canadian Collieries was equally liable when it locked out its men eight months ago."

Prepared to Continue.

"If he returns and wants to investigate this case we'll prove every grievance we've made, but if he does not want to look into the question then the United Mine Workers of America have made all preparations to continue this strike indefinitely. Even if we are all arrested officials from the outside will keep the strike organized, and there will be no settlement until the companies recognize our organization and give us a fair and equitable agreement similar to the one which has been arrived at with the men of the Jingle Pot. Those men have gone back, and we expect to see 200 men at work there in three weeks under one of the finest agreements ever signed by the U. M. W. A. since its inception."

"We are winning now. The reason those 300 Highlanders went to Cumberland on the Princess Patricia was because trouble was expected, but to prevent the non-union men from quitting work, 180 having left in the last two weeks."

During the trials yesterday in the ground floor of the Abbotsford hotel, the men of the Fifth regiment kept the people from passing within two blocks of the hotel. Ladysmith is one of the places where the authorities are especially fearful of something happening, the mobs proving somewhat hard to handle at all times.

THREE SETTLEMENTS THREATENED BY FIRE

Hallifax, Aug. 21.—Raging fires are reported centred all over the country down along the coast shore to the Lakayo river. Lying in the path of a great wedge-shaped conflagration that already has destroyed ten miles of woods, the settlements of Malone Bay, Martin's river and Martin's point, are still in peril. All movable furniture and other effects have been taken from the houses ready for removal to the next refuge. Twenty-five men from the Lunenburg fire department are working with the people.

TEACHERS RETURNING.

London, Aug. 21.—The Canadian teachers concluded their tour by a visit to Chester, where a civic reception was extended them. Before embarking on the steamer Corsican they expressed extreme gratification at the hospitality shown them throughout the tour.

WILSON WILL TELL OF LIND'S MISSION

Huerta's Reply to Be Given to Congress by the President

PENROSE SEEKING TROOPS FOR MEXICO

Wants an Appropriation of Twenty-Five Millions for Americans' Protection

SIMILAR PROVISION PRIOR TO SPANISH WAR

Washington, D. C., Aug. 21.—President Wilson announced late to-day that he would prepare at once a message to congress setting forth in detail the purpose of John Lind's mission to Mexico, a summary of the American note and the reply of the Huerta government.

While the president has not finally decided whether he will read the message to both houses of congress it was said on good authority that he was inclined to do so.

American troops for police duty in Mexico for protection of American lives and property and an emergency appropriation of \$25,000,000 to be expended under the direction of the president for that purpose were proposed in a resolution to-day by Senator Penrose. He did not ask the senate to adopt his resolution to-day and it went over.

A concerted effort on the part of the Republicans and Democrats to support President Wilson in his Mexican policy and to carry to the world the definite idea that the president has the full support of the American people at once became apparent.

Introduction of the resolution was followed by a general demand on the part of the Republicans, seconded by Chairman Bacon, of the foreign relations committee for a cessation of all debate and support President Wilson. Emphatic and concerted declarations from senators of both parties of their confidence in the wisdom and good faith of the president were plainly an answer to reports from Mexico that Huerta was contending that President Wilson had a divided congress and a divided public opinion behind him.

The amendment for an emergency appropriation which Senator Penrose asked, was similar to a provision in an appropriation act just prior to the Spanish war, and he asked that the amendment lie on the table in the senate until the bill comes over from the House.

WANT CANADIAN GROWN TIMBER IN HARBOR WORK

Minister of Marine Promises to Place Request Before Ottawa Colleagues

Vancouver, Aug. 21.—A deputation representing the British Columbia Timber & Shingle Manufacturers Association, and consisting of Messrs. R. H. Alexander, P. D. Roe and R. H. Alexander, waited on Hon. J. D. Hazen, minister of marine and fisheries, last evening, and asked that Canadian-grown timber be used exclusively in the various harbor and dock improvements being and about to be carried out throughout the Dominion. The minister, in reply, expressed himself in sympathy with their request and said he would submit the matter to his colleagues.

A member of the deputation said that the omission of a clause in the specifications providing for the use of Canadian timber might result in the substitution of American-grown timber bought in the United States, where the lumber trade is stagnant and where ruinous prices prevail. It was also noted that in the single instance where Douglas fir is mentioned, the exemption would not be complete as the same fir bearing the same name is found in the adjacent Pacific coast states. It was also pointed out that the loss of this business to Canadians would be an injustice, as government contracts call for the use of over one hundred million feet within the next three years.

U. M. W. OF A. IS SEEKING RECOGNITION IN COLORADO

Trinidad, Colo., Aug. 21.—Negotiations affecting the threatened strike in the southern coalfield hinge on the proposal for an open shop. While this would permit the employment of non-union men, it was generally understood that it would lift the ban on organization activities by the U. M. W. of A., which heretofore had been enforced by the operators.

Frank J. Hayes, vice-president of the U. M. W. of A., still insisted that he would call a strike unless a recognition were granted.

DIGGS FOUND GUILTY ON MANN ACT CHARGE

Case in Which Attorney, McNab Resigned as Protest Ends First Stage

San Francisco, Aug. 21.—In eloping with Marsha Warrington from Sacramento to Reno, Nev., Maury I. Diggs, former state architect of California, was found guilty of violating the Mann Act. This was the verdict last night of the jury that tried him. Five years in the federal penitentiary is the maximum penalty.

There were six counts in the indictment and the jury found a verdict of guilty on the first four. Each count carries a maximum penalty of five years and a minimum of one year in a federal penitentiary.

The case won national notoriety when the United States attorney, McNab, resigned, charging that the trial had been delayed by political influence and made public his resignation in an open letter to President Wilson.

"Either," he wrote, "the attorney-general withheld from the president my repeated messages of warning that corruption and influence were destroying the cases and postponement was fatal, or official Washington is neither sensitive nor responsible to the charge of corruption in its public events."

Sentence will be pronounced a week from Tuesday, September 2. Judge Van Fleet fixed bail at \$5,000 on each count, making \$20,000 in all.

Counsel for the defence announced that they would appeal.

HUERTA SAYS WILSON PLANS UNSUPPORTED

Provisional President of Mexico Believes U. S. Democratic Power is Temporary

Washington, D. C., Aug. 21.—Intimations are contained in Provisional President Huerta's reply to the note of John Lind that President Wilson is not backed up by congress or the American people in his stand against recognition of the Huerta government. Referring to the attacks on the Washington administration by members of congress and pointing to the official recommendations of Ambassador Henry Lane Wilson advising recognition, President Huerta declares he is entitled to be recognized. He holds that the Democratic party's power is temporary, and argues that recognition of his government is a partisan question in the United States. He intimates that he reaches his conclusion on private advice from Washington.

This information was obtained last night from those who know the contents of the Huerta note, so far as it has been deciphered. The complete note is not yet to hand, but the principal argument has been placed before administration officials.

Though negotiations between Mr. Lind, personal representative of President Wilson, and Provisional President Huerta are continuing on a general personal basis, neither side is receding from its position and alternative measures already are under consideration here. No definite course has been formulated, but the policy that is at present under consideration and most likely to be adopted is one of absolute non-interference.

The American government, under such a policy, would continue to deny arms to both sides, the withdrawal of Americans from the trouble zones, insist on proper protection to property and lives, and in effect let the Mexicans continue their controversy on the battlefield.

The administration is determined against intervention or war, and the only other alternative, friendly mediation, has apparently failed. Officials here believe, however, that the United States, through the mission of Mr. Lind, will have satisfied foreign governments generally of its desire to bring about peace, and they do not conceive that there will be any pressure to bring about intervention.

To grant arms to the constitutionalists would, in the opinion of many officials, only add to the dangers of anarchy in the Republic, equipping bandit bodies with weapons of destruction of which they have hitherto been deprived.

The present administration purpose of deferring recognition until a constitutional election shall have been held and President Wilson stands firmly against recognizing the Huerta regime under any circumstances.

From these considerations it is not likely that Mr. Lind's informal talks with the Huerta officials will continue long. He will remain in Mexico City indefinitely, however, as the adviser to the administration embassy which is without an ambassador.

C. P. R. OIL BURNERS READY BY OCTOBER

General Manager of Western Lines on Inspection Trip Now at Vancouver.

Vancouver, Aug. 21.—Conducting an inspection tour of western lines, Grant Hall, general manager of western lines for the C. P. R. arrived in the city last night, accompanied by N. E. Brooks, chief engineer of the main-line department. F. W. Peters, general superintendent of the British Columbia division, A. E. Stevens, assistant general superintendent, and C. A. Cottrell, district superintendent, met the head official at Field, and went over the line with him, and conferred with him regarding matters affecting the British Columbia sections of the road.

With reference to the substitution of oil-burning engines on the Cascade sub-division, Mr. Hall, in reply to a question, stated that the locomotives would be transformed, and probably ready for service under the new system by the end of October or even earlier. The C. P. R. is establishing oil tanks at different divisional points to supply the engines with fuel. Freight, passenger and yard locomotives will use oil as fuel.

Commenting on the double-track operations Mr. Hall said that gratifying progress was being made, and that trains would be running on the new tracks at an early date between Mission and Ruby Creek.

FORTY-SIX ELEVATORS PLANNED FOR ALBERTA

Calgary, Alta., Aug. 21.—Forty-six elevators will be constructed in Alberta this year in time to handle this season's crops, by Alberta Farmers' Elevator Company, authorized under the Farmers' Elevator Bill passed at the last session of the Alberta legislature. The new company is closely allied to the United Farmers of Alberta and the Grain Growers' Grain Company of Manitoba.

The cost of constructing the elevators varies from \$8,000 to \$12,000 each, and the total storage capacity will be about 1,500,000 bushels. During the course of the next two years it is expected to expand the scheme considerably.

FOURTEEN I. W. W. ARRESTS.

Minot, N. D., Aug. 21.—Fourteen more arrests were made late last night when police and I. W. W. again clashed over attempts of the latter to resume street speaking. Many of the Workers were severely beaten, the police using their clubs freely.

COAST FLOUR MILLS IN YEARS PERHAPS

Grain Men Say Crop Throughout Canada is Immense; Will Relieve Conditions

Vancouver, Aug. 21.—Hedley Shaw, of Toronto, general manager of the Maple Leaf Milling Company, and D. O. Cameron, Winnipeg manager of the company, are at the Hotel Vancouver on their annual visit. Both report the crop prospects in the central provinces "immense," and Mr. Shaw believes that the result of the harvest will be one which will be felt almost instantaneously from the Pacific to the Atlantic. There is, however, no prospect of the millers establishing flour mills on the coast until conditions have improved, and perhaps not for some years to come.

The great problem to be solved of the passage of prairie grain through Vancouver, by way of the Panama canal, is as to what will be the effect of shrinkage, and the millers seem to be united in the belief that they will do nothing until that problem is solved. Should experimental shipments prove that it is better to ship the western prairie grain to Europe in the shape of flour, then the millers will establish mills on the coast; until that time comes they are waiting for results; but already several options have been taken on Vancouver property for milling sites, if it is proved, as many millers believe, that Canadian grain cannot pass through the tropics without being treated.

COTTERILL BARRED AS PIKE STREET SPEAKER

Judge Humphreys Gives Unexpected Turn to Injunction Proceedings at Seattle.

Seattle, Aug. 20.—With his court room so crowded it was practically impossible to get in or out, Judge John E. Humphreys held one of the most remarkable sessions in the history of the superior court yesterday. The case causing the most interest was that of various business houses in the vicinity of Fourth and Pike streets against street speakers. While a temporary injunction prohibits street speaking in that section, the case was scheduled to be argued on its final merits. Early in the case an affidavit by Mayor Cotterill was exhibited by the attorneys for the street speakers. This affidavit in some measure defends the position of the street speakers.

"I suppose," declared the court, "it would be best if we took precautions against having our mayor speak at Fourth and Pike. Does anyone here represent the mayor?" Silence greeted this question.

"Well," continued the court, "you may just write down that Mayor Cotterill is permanently restrained from speaking at Fourth and Pike."

The court room was astonished at this declaration. No one had applied for a restraining order against the mayor personally.

FARM HANDS REACH WINNIPEG BY TRAIN

Of Seven Thousand, Fifteen Hundred Arrive From United States.

Winnipeg, Aug. 21.—Nearly 5,000 harvest hands arrived in Winnipeg yesterday and last night most of them have been shipped to points in the three prairie provinces. Two thousand have been distributed in Manitoba alone, while Saskatchewan has attracted an even greater number.

The majority went out on the C. P. R. westbound train. Of the rest, 300 traveled to C. N. R. points and 500 on the G. T. P. Two more train loads are due at 7 and 8 o'clock to-morrow morning.

A noticeable feature of the inflowing stream of men is the number arriving from United States points. There were about 1,500 altogether, the majority of whom came north following on the bad crop conditions down south which have severely damaged the grain and reduced the yield.

POLICE SIGHT TUNGREN WHO ESCAPES CAPTURE

Men Wounded at Index Sunday Morning Are Recovering From Injuries.

Everett, Wash., Aug. 21.—Search for Edwin Tungren, who killed Dorothy Dunbar at Index on Sunday night and wounded others, has been maintained continuously since Monday morning, but without result. The body of the slain woman was sent from Everett yesterday for burial at Seattle, where her mother resides. Merl Dean, the Seattle travelling man, and George C. Cramer, the Everett locksmith, wounded by Tungren, are recovering.

A man answering Tungren's description at supper Tuesday night at a section hand's camp between Index and Gold Bar. The trail was taken and the sheriff reported yesterday morning having seen Tungren at 2 o'clock, but the fugitive escaped.

FELL SIX HUNDRED FEET.

Glacier Park, Mont., Aug. 21.—Calvin Fletcher of Indianapolis, Ind., instantly killed in Glacier Park yesterday when scaling Blackfoot Glacier. He fell six hundred feet.

Dr. Fletcher, with his wife and members of the Prairie club, of Chicago, entered the park August 12, and were visiting the most famous glacier in the park when the accident occurred.

SPECIALS DRILLED FOR STRIKE DUTY

All Prisoners Charged Are Remanded; Some Are to Be Transferred

Nanaimo, Aug. 20.—Twenty-five special police arrived to-day and at present there are about 225 specials on duty, about 70 or 80 of whom are in the outside districts.

Benefiting by his experience at the Fernie strike, Superintendent Campbell is having the specials, now here drilled in simple evolutions, two squads being so instructed until a late hour to-night. Considerable difficulty has been experienced in securing rooming quarters for the rapidly increasing number of specials.

The 27 prisoners taken on Tuesday at Ladysmith and brought to Ladysmith on the military special train from which press representatives were excluded by Adjutant Villiers, in command. They were arraigned before Magistrate Stewart. All were charged with being members of an unlawful assembly, and all, with the exception of four 16-year-old lads, who were released on their own recognizances, were remanded for eight days, bail in each case being refused.

The prisoners were marched, with a military escort with fixed bayonets, from the train to the military headquarters in the Abbotsford hotel smoking room, in which court was held. In addition, 15 prisoners taken on similar charges were arraigned and similarly treated. The whole batch of prisoners was then brought back to jail here to await the preliminary hearing.

In the meantime Taylor, arrested at Victoria on Saturday last on a warrant charging intimidation, arrived at Ladysmith accompanied by his solicitor, Frank Higgins. He was also arraigned and remanded until Tuesday next, afterwards returning to Victoria under guard.

The increase in the number of prisoners here necessitates the transfer to Victoria, New Westminster and other points of a large number, the local jail accommodations having proved wholly inadequate. A special train bearing 45 prisoners and a military escort leaves for Victoria Thursday, where the former will be incarcerated. Another party will leave for the Colony Farm, outside New Westminster.

Complete and strict military supervision is being maintained.

The Charmer brought down 43 foreigners from Cumberland, where they have been employed on C. N. P. construction work. They declared they were induced to quit work and come to Nanaimo by J. McAllister, secretary of the Miners' Union there, and that their passage had been paid by the union. The police were advised and met the boat. The party was refused a landing, and sailed on the Charmer on her trip to Vancouver; the additional passage money, it is said, being furnished by the union here.

The situation as to the mines remains the same. About 40 men are clearing the workings of the Jingle Pot mine, owned by the Vancouver-Nanaimo Coal Company, which has recognized the union. It will be a month before coal is mined there. The Canadian Collieries, Ltd., has representatives looking over the Extension mines, and it is likely an attempt to put non-union men at work there will be made.

Reports to the union here to-day stated that the machinists, boiler-makers and blacksmiths at Union Bay had gone on strike, as also all but three men in No. 8 shaft of the Canadian Collieries, Limited. Manager Lockard, of the mines at Cumberland, stated to-day that reports that the company's mines there were idle on Monday was false. On that day 1,850 tons were mined. He also denied that any men have quit work.

All is bustle at provincial police headquarters, the mass of work involved in perfecting arrangements for the policing of the district being enormous. T. B. Shoenobotham, representative of attorney-general, is one of the busiest of all, preparing the various cases of prisoners for trial, examining witnesses and other work incidental to the trial of the large number of offenders.

The last tally of arrests brings the total to 140 as follows: Nanaimo 33, Ladysmith 43, Extension 33, South Wellington 16. With a view to subsequently submitting a claim for compensation for damages done to the premises of their compatriots in the strike-affected district, a party of five prominent Victoria and Vancouver Chinese have been making a tour of the points at which, during the recent rioting, loss was sustained by the Chinese residents.

Ladysmith, Extension, South Wellington and Nanaimo have been visited, and an appraisal of the loss incurred in damage to buildings and contents made.

At Extension the greatest damage to Chinese premises was done by strikers, ten dwellings and two stores, with contents, being sacked. At South Wellington half a dozen dwellings were badly wrecked. The loss is estimated at between \$2,000 and \$3,000.

MINE PLANT DESTROYED.

Searchlight, Nev., Aug. 21.—Fire destroyed the forty-horse power mill, the ginroom and the electric plant at the Quartzette mine near Searchlight early to-day. The loss was \$115,000, only a small part of which was covered by insurance. The assay offices, stables and other buildings at the mine were saved.

CLIMBS 22,000 FEET.

Milan, Italy, Aug. 21.—Dr. Piacenza, an Italian explorer, has succeeded in reaching the summit of Mount Nung-kum, a peak 22,000 feet high, in the Himalayas, according to a telegram received here to-day from India. Many vain attempts have been made by English and American mountaineers to scale this peak.

NO UNION OF CANADA AND UNITED STATES

William Howard Taft Talks Politics by Request but Prefers Golf

Murray Bay, P. Q., Aug. 21.—Ex-President Taft of the United States is holidaying at this point, and speaks in an interesting manner with regard to the relations between Canada, England, and the United States.

"There are yet some Utopians," he said, "who believe in the possibility of political union between Canada and the United States. I am not one of them. It is something we will never see."

"War between Great Britain and the United States is impossible. It is out of reason."

"With Japan, as with other countries, there are certain difficult problems. In all cases a satisfactory solution will be reached."

Mr. Taft will soon be seen in Montreal. During the annual convention of the American Bar Association to be held here in September, the ex-President will be one of the prominent figures. Presently he is at his summer residence at Point-au-Pic, near Murray Bay. Mr. Taft holds a deep love of the lower St. Lawrence, and has been a frequent visitor there. During his term of office at the White House he respected the tradition that a President must not leave the United States during the presidency, and much regretted being obliged to defer his usual summer trip to Murray Bay.

First asked for an expression of opinion on the probability of political union, he answered as quoted in the foregoing, saying that it was beyond all possibility. "There are two good reasons for this," continued Mr. Taft. "The people of Canada are animated by sentiments which honor them before the world, their sentiment of loyalty towards Great Britain, and the love of their Canadian fatherland. If Montgomery and Arnold had won at Quebec things might have been different to-day, but—"

"I am sure that Canada and the United States will always continue in perfect harmony. I had thought to have thrown down the commercial wall that exists between the two countries so that Canadians and Americans might transact their business with the utmost freedom. That attempt was a failure, but business proceeds as in the past."

"Canada will succeed. You possess a wonderful country. You are free from those embarrassing problems which hamper so many other countries."

Mr. Taft said that politics was a rather burdensome topic. He has served twenty-six years in various capacities for the United States. He was glad to be free from the stir and bustle of politics and problems. He would rather enjoy the brisk air. "No, I do not regret leaving the White House. I am a school-boy on a holiday. I would rather play golf than talk politics."

"Golf is a great game," commented Mr. Taft. "Every man between 50 and 80 should play. It is the grandest exercise possible. You can walk five miles or so, under the best possible conditions, there is nothing to bore nothing to fatigue one. The interest is always maintained."

"Golf is the real secret of attaining old age. I know some men of 90 who play the game and maintain perfect health. It is wrong to think that golf is a game for the rich only. That is a mistake. In Scotland everybody plays golf. The United States there are many cities that have municipal courses."

Mr. Taft confessed that he was willing to put on the gloves any day for a round or two, nor was it amiss for him to spend a lively ten minutes on the wrestling mat.

CONVICTIONS UNDER "CAT AND MOUSE" ACT

At Present Rate Mrs. Pankhurst Would Take Until 1935 to Complete Sentence.

London, Aug. 21.—The Globe gives the following statistics in respect to the 25 cases that have been dealt with under the "Cat and Mouse" act:

Name and sentence.	No. of days to date.	No. actually served.
Miss Stevenson, 9 months ..	141	51
H. Franklin, 9 months	135	17
Mrs. Pankhurst, 3 years	112	17
Miss Dean, 6 weeks	42	17
Miss Manest, 5 months	39	29
Miss Thomson, 3 months	36	4
Miss Scott, 9 months	36	9
Miss Hudson, 9 months	36	9
Mrs. Palmer, 6 weeks	42	25
Mrs. Ryan, 6 weeks	42	25
Mrs. Walsh, 6 weeks	42	25
Miss Kenney, 18 months	37	12
Miss Barrett, 9 months	37	9
Miss Lake, 6 months	37	4
Miss Lennox, 6 months	37	8
Mrs. Sanders, 15 months	37	8
E. Clayton, 21 months	37	4
Mrs. Kerr, 12 months	37	4
Mrs. Shaw, 3 months	33	6
Miss Marion, 3 years	20	7
Miss Givens, 3 years	20	4
Miss S. Pankhurst, 3 months ..	13	4
Miss Richardson, 3 months	15	4
Mrs. Baines, 12 months	17	7
Totals	1,226	203

Of the above 25 "mice" no fewer than 10 have left the country and are returned as "missing." The following table gives the earliest date on which some of the prisoners will complete their sentences at the present rate: Miss Scott, October, 1918; Miss Kenney, October, 1918; Miss Givens, February, 1921; Miss Hudson, March, 1921; Miss Marion, April, 1924; Mrs. Pankhurst, February, 1935.

KANSAS APPLE CROP RUINED BY DROUGHT

Corn Suffers But Irrigation in Valleys Will Save Considerable Produce.

Kansas City, Mo., Aug. 21.—Reports of dry weather damage continued to reach here to-day from Kansas and Northwestern Missouri. Fruit growers of Northwest Kansas and Northwest Missouri say the apple crop will be little better than a failure.

Scattered showers the last four days have reduced average temperatures several degrees and in some sections have been sufficiently heavy to give the corn a chance to mature, but yesterday's temperatures in many parts of Kansas were still above a hundred and promised to pass that mark again to-day. With it all reports reaching Kansas City and Topeka show only few and isolated cases of discouragement among the farmers.

In many instances corn has been ruined, but there is the wheat crop and a cutting or two of alfalfa safely stored away before the drought developed. Most cases of drought fright seem to come from towns where the water supply, in many cases an artificial lake, has dried up.

Fruit growers in the Arkansas river and Cow Creek valleys, near Hutchinson, Kan., say they have saved thousands of dollars' worth of apples by tapping the underflow and taking water from the sand strata through long strings of wells and pumping it on their orchards. Late crops of alfalfa have been preserved by the same irrigation methods.

GUARD STRENGTHENED TO PROTECT MANUEL

Sigmaringen, Germany, Aug. 21.—Extensive police precautions have been taken by the Sigmaringen authorities on account of the presence here of ex-King Manuel of Portugal, who is to marry Princess Augusta, a Victoria daughter of Prince Wilhelm of Hohenzollern, in September. All strangers are placed under strict surveillance, possibly on account of fears held by the police that an attack may be made on the ex-Portuguese king.

EXODUS FROM EAST TO WEST CEASING

Vancouver, Aug. 21.—Hon. J. D. Hazen, minister of marine and fisheries, and Senator Thorne, of St. John, N. B., were the guests of honor at the banquet given by the New Brunswick Association of Vancouver in Spencer's lunch rooms. There were about 200 guests present. Dr. D. J. Hall occupied the chair.

In an address Mr. Hazen said that the exodus from the eastern provinces to the west had largely ceased, as it was recognized that the same labor and ambition applied at home would result in as much wealth as in the west, with the addition that the older portions of the Dominion offered social advantages such as good schools and proximity to markets, which the newer parts of the prairie provinces could not duplicate.

DRIVES MOWER OVER HIS CHILD IN FIELD

Olympia, Wash., Aug. 21.—While asleep in an outfield, Oren George 3-year-old son of Albert George, a rancher in Southern Thurston county, near Independence, was run over by a mower driven by his father. The parent did not see the little one until it was too late, and the child was terribly mangled by the machine. The father immediately summoned medical assistance, but it was some time before a doctor arrived, and nothing could be done to save the child's life.

MARY GARDEN POPULAR AMONG SCOTTISH PEOPLE

Edinburgh, Aug. 21.—Mary Garden, who is one of the innumerable holiday makers in Scotland just now, is staying at Strichen house, Aberdeenshire, which she rented for the shooting season. Miss G. arden is much talked about in Aberdeenshire as her parents belong in the country and are still remembered there, as they only left for America after their marriage. Miss Garden is popular around the country-side, where she loves to be referred to as the "Bonnie Highland Lassie."

NO FARCE-COMEDY.

It will be a pity if the effective operations of the militia in the strike district are brought into ridicule by the adoption of burlesque frills. The suggestion that the newspaper correspondents be placed under censorship in the existing circumstances is so melodramatic as to indicate that somewhere in the embattled phalanx there must be a comic opera librettist. As far as the Times correspondent on the scene is concerned, he will do his duty to this paper without fear or favor and with due appreciation of requirements of the law, but he is not going to play any farce-comedy role even to lend the color of "pride, pomp and circumstance of glorious war" to the restoration of order in the strike district. The readers of the newspapers are entitled to know what is going on in Nanaimo, Ladysmith, Cumberland and Extension, as they have a pressing personal interest in the matter. The correspondents are better informed as to what concerns the readers of their papers than any amateur censor could possibly be and they can be depended upon to show as much discretion as the circumstances require.

MINISTER OF LABOR.

Hon. T. W. Crothers is Minister of Labor in the Borden government. At the time of Mr. Crothers' selection by the Premier for the position of Minister of Labor there was a good deal of speculation as to the qualifications of the man for the post. The minister has been in office for about two years, and we venture to say there is more speculation than ever respecting his qualifications. Mr. Crothers came out here, where the labor conditions are very strained—and went away without doing anything, or attempting to do anything, to bring about a better understanding between the miners and the mine owners. Occupying the position he does, exercising the authority he ought to command, Mr. Crothers should have been in a better position than any other man in the country to end the chaotic conditions and restore order. But he went back to Ottawa, and announced that he had instructed some one to prepare a report on the labor situation on Vancouver Island. It appears the man who has been instructed to prepare this report, which will no doubt be issued in a year or so, and therefore will be invaluable as an instrument for the settlement of the trouble, is Mr. Samuel Price, of Elgin county, Ontario, and law partner of Hon. T. W. Crothers. No doubt Mr. Sam Price, lawyer, living in Elgin county, Ontario, and in the midst of a very prosperous agricultural community, is quite as well informed on the issues between capital and labor as Mr. Crothers, who hails from the same bucolic community. But then Mr. Price has been given a job, which he will work to the limit for his own advantage, and that appears to be the chief end of all the ministers in the Borden government and their great company of parasites.

However, Mr. Crothers, Minister of Labor, did not finish his work in the cause when he came to Vancouver Island and instructed his law partner to prepare a report. The Minister of Labor is going to Great Britain "to study labor conditions at first hand." Doubtless he will instruct his partner, Mr. Sam Price, to prepare a report on that trip too. Thus several objects will be gained. The Minister of Labor will be as far away as possible from the scene where he should be in action. He will enjoy a holiday at the public expense, which is a fashionable pastime among the members of the Borden government.

A CANADIAN ENGINEER.

The Minister of Public Works last night announced that his department was searching for a capable engineer to report upon the cost and feasibility of bridging Seymour Narrows. We trust the Minister will make his selection from the ranks of Canadian engineers. This will not be a difficult task. There are many engineers in Canada easily capable of reporting upon this project. They have done so before, and can do so now.

Of late years there has developed in high places in this country a lamentable and unaccountable lack of confidence in the capacity of our professional men. All the great projects that have been carried out in Canada by our own brain and brawn have been overlooked, and the fashion has become to look abroad for expert talent. The government of British Columbia, though constantly and platonically proclaiming itself British by day and night, went to Seattle for an engineer to supervise the improvements of Strathcona Park, negotiating with him a five year contract in the munificent sum of \$15,000 per year. This work could have been just as effectively performed by a score of engineers in the province, but, being Canadians, they were discriminated against by gentlemen who seek to convey the impression that they are so loyal that they never lie down at night without first wrapping themselves in the Union Jack. The Minister who made the contract has just returned from London, where he has been emphasizing British Columbia's devotion to British institutions, in fact to everything British except British engineers.

The extent to which Canada will take her place among the nations of the world depends entirely upon the development of her men. If she hires people of other countries to do for her what her own people should do she will find herself in the long run devoid of self-reliance and anemic in national sentiment. The tendency to send abroad for professional skill is not only humiliating but dangerous. It certainly is not British, and we hope Mr. Rogers will not fall into the error when he selects his engineer for the Seymour Narrows report.

WHO PAYS?

Who will have to foot the bill for the services of the militia in the trouble zone? Under the Militia Act when soldiers are called out in aid of the civil power, the municipality in which their services are required shall pay them certain specified allowances. Pending payment by the municipality, the sums in the first instance shall be advanced out of the Consolidated Revenue Fund by authority of the Governor in Council, but this does not interfere with the municipality's liability, and the sum can be collected in the usual way as a debt due the crown. The municipalities of Nanaimo, Ladysmith and Cumberland will thus be responsible for a pretty substantial bill, which, at the rate of a dollar per day for each man and one dollar and fifty cents per horse in addition to the pay authorized for the officers, to say nothing of the food supply, amounts to more than two thousand dollars per day. If the militia remains on the ground fifteen days, the total liability will probably be more than thirty thousand dollars, and a mighty howl will ascend from the municipalities if they have to pay it. Messrs. Shepherd and Clements, who represent the districts at Ottawa, will be entrusted with the entertaining duty of proving to the federal government that it would be excellent politics if it relieved the municipalities from the necessity of paying the shot.

The mayors of Nanaimo and Ladysmith emphatically declare that they did not sign the requisition to the district officer commanding in British Columbia to call out the militia. In that case the requisition must have been issued by either a county court judge, a magistrate or three justices of the peace, as prescribed by the act. It has been intimated that the Attorney-General, with Napoleonic directness, ordered the embattled legions out himself, but the officer commanding would scarcely act on this direction alone even if Mr. Bowser appeared before him in person wearing Napoleon's hat and greatest. He would insist upon the regular requisitions, of which we understand he has several. One thing is fairly certain: the federal government in the end will pay the cost of the military activities at Nanaimo, Ladysmith, Extension and Cumberland.

In another column of this issue, Fitzpatrick & O'Connell, the well-known Government street merchants, publish a denial of certain malicious rumors affecting their financial standing which have obtained considerable currency on the streets during the last day or two. It is greatly to be regretted that rumors of this character, calculated as they are to do much harm to the individual and to the city, should under any circumstances obtain credence in respect to any business firm, but when, as in the present case, they are—as we are assured—absolutely untrue, the offence is still

WASHED NUT COAL

\$5.75 PER TON

(Cash)

This is the same kind of Coal that you will be paying \$6.50 and \$7.00 for before long. Why not let us fill your coal bin now!

E. C. Anderton

Real Estate and Insurance
Room 4 McGregor Bldg. Tel 2211

greater, and the injury that may result is many times increased.

The suffragettes appear to have the right of it. The tyranny of modern man is insufferable. What right has he to dictate the style of dress women shall wear? Yet he is trying to do this. We read in the newspapers that several cities in the United States, with mere men mayors, have issued orders attempting to outline what is seen in womanly costume and ordering the arrest of all who trespass beyond the limits of their arbitrary decrees. Then the Pennsylvania Railway Company blames six accidents it had during the past week to the high heels and narrow skirts worn by women. The Lord of creation may, however, be "trotting to his fall."

"The Colonist has on a number of occasions drawn attention to this subject (Oriental trade), and what we have said is only emphasized by the remarks of Mr. Foster."—Colonist.

Of course, did Mr. Foster imagine for an instant that he was capable of entertaining one solitary idea that had not been originated by our contemporary? At the same time we think the morning paper might have shown its gratitude to Mr. Foster for his "emphasis" by forbearing to remind him that he was telling an old old story. It might be observed, however, that much depends upon the way the story is told.

We are told that it is the intention of the federal government to acquire as much as possible of the area surrounding the site of the proposed dock with a view to future development. Some of the energetic gentlemen on the inside have anticipated that announcement by a wide margin, judging by the interesting game of options which has been played in the neighborhood. There is something going for the boys at every turn of the wheel.

Governor Sulzer of New York had a few dollars of the campaign fund left after his election, and just because he or his wife used this money for personal purposes, consider the fuss that is being kicked up.

BITS OF WISDOM.

Life is a species of energy, and each man expends his energy in and about those things which chiefly delight him.—Aristotle.

Men are usually tempted by the devil, but an idle man positively tempts the devil.—Spanish Proverb.

Moderation is the silken string running through the pearl chain of all virtues.—Bishop Hale.

Modesty seldom resides in a breast that is not enriched with nobler virtues.—Bryere.

No power can die that ever wrought for truth.—Lowell.

Not only strike when the iron is hot, but make it hot by striking.—Cromwell.

POISONOUS TABLETS.

(Boston Globe.)
No state should be without such a law as Dr. Fabet proposes, viz., one prohibiting the sale of bichloride of mercury tablets except on prescription signed by a registered physician and presented by the purchaser.

Furthermore, the manufacturers should be compelled to color the tablets and make them in unusual shapes—triangular or cubical.

SPECIAL OFFERINGS FOR FRIDAY

Carpets, Curtains and Linoleums

SPECIAL CLEARING LINES FOR FRIDAY

Tapestry Squares, 3x4 yards. These squares are made with one seam down the centre, and there's a good range of combination colors and patterns, including fawns, greens, browns and reds. They are suitable for any style of room. August Sale Price, each \$5.75
Axminster Rugs—There are 39 only of these Axminster Rugs, and they measure 27 in. wide and 14 in. long, finished with fringed ends. A good assortment of shadings and patterns to select from, suitable for any style of room. August Sale Price, each \$1.45
Scotch Linoleum—300 sq. yards of heavy Scotch Linoleum, 2 yds. wide, well painted and well seasoned, and there's a good range of patterns to select from in tile, block and floral effects, both light and dark shadings, suitable for any style of room. August Sale Price, per square yd. 39¢
Cocoa Mats—5 dozen good quality cocoa mats, made from strong, bright fibre. August Sale Price, each \$6.49
Nottingham Lace Curtains—300 pairs, made with good strong thread, and in a large assortment of patterns, all finished with lock-stitched edges, which is a great advantage when they are washed. They come in white and in cream. Special August Sale Price, per pair \$1.00
Tapestry Portieres—24 pairs only. These portieres are 50 in. wide, 2 1/2 yds. long, and are reversible; are finished on both ends with heavy knotted fringe. In good serviceable colors of brown, red and green. August Sale Price, each \$1.95
Bungalow Scrims—600 yards of American Bungalow Scrims, 26 in. wide, all reversible. Many of these have plain centres, with handsome borders, others have patterns running right through. They are suitable for almost any style of window decoration. August Sale Price, per yard \$2.49
Cretonnes—We are showing an extensive range of best quality cretonnes in both 30 in. and 50 in. widths. Many of these cretonnes are hand-blocked and look more like velvet than cretonne. The colors are exceptional and in an artistic range. Prices range from \$2.49 to, per yard \$3.99

A Bargain in a Solid Oak Buffet

We have a beautiful Buffet, made of solid oak, which we are offering during this sale (while they last) at an exceptionally low price. It is in a useful size and has a large beveled British plate mirror in the back. The lower portion is fitted with two small drawers for silverware and one long drawer for linen, and the centre is a large cupboard, enclosed by two panel doors. You can choose from fumed oak, golden oak or Early English finish. Special for August Sale, \$23.75

Important Sale of Women's Skirts Friday. Regular Values to \$15 Clearing \$6.75 at

THERE'S a splendid assortment of Women's High-Grade Skirts in this offering, and the fact that prices have been lowered to about one-half the regular is in itself sufficient reason for our anticipating a very busy time.

The materials from which they are made are guaranteed by the makers to be thoroughly sponged, shrunk and stitched with silk, and include Panamas, Serges and Voiles in black, navy, greys and brown, also black and white stripes. The sizes of waist bands mostly measure 22 to 25 inches, but there are a few over, and the lengths vary from 36 to 42.

Plain-tailored, pleated, some side fastening and others in slight draped or over-skirt effects are the styles to choose from.

If your size is here you can rely on getting a real bargain.

Regular Values to \$15.00. Friday, \$6.75

Important Sale of Silk and Linen Waists Friday. Reg. \$3.50 for \$1.50

FRIDAY will be your opportunity to secure some very fine bargains in Silk or Linen Waists. These materials are so serviceable for Fall and Winter wear that we are confident this offering will be much appreciated. Included are Pongee Silk Waists made with pocket and soft French collar and cuffs. Striped Silk Waists in colors black and white, mauve and white and also black silk. These are made with French collars and cuffs, and some are finished with a pocket. The White Linen Waists are in Norfolk style and finished with a colored collar and cuffs. For further particulars see View street windows.

Regular Values to \$3.50. Friday, \$1.50

Special Offering in New Fall Coats Friday at \$13.75

THIS special offering includes a very attractive range of new Fall Coats that are well-made and tailored from the season's latest materials, and in all the newest shades of browns, greens and greys. They come in popular three-quarter length, with rounded corners and can be worn open to form revers or buttoned close up to the neck. The huge fancy buttons are the only trimmings used, the materials in themselves not requiring more. All sizes are to be had up to 42 bust. If you would like to see the garments they are displayed in the View street windows, but there's a much larger assortment to be seen in the department on First floor.

A Timely Sale of Girls' School Dresses, Rompers and Overalls Friday

NOTHING could be more appropriate than a sale of this kind announced for Friday. Most of the girls go back to school next Monday and most mothers find that it's necessary after the long summer holidays, to buy an extra school dress or two, to say nothing of the other items of attire.

We are sure that the following offering will be greatly appreciated, but as the stocks are limited, and to save disappointment we would advise early buying.

PRETTY SCHOOL DRESSES

Regular Values from \$3.75 to \$6.75. Friday, \$1.50.
Not one dress in the lot worth less than \$3.75, and most are worth considerably more, so that whichever style or quality you select, you are sure of getting a real bargain. Included are fine grade ginghams, chambrays, linens and prints and they are to be had in a great variety of pretty styles and colors. Sizes to fit girls from 8 to 14 years. All one price, Friday, each \$1.50

GIRLS' ROMPERS

In blue and white and pink and white ginghams. Regular \$1.00 values. Friday \$0.50

GIRLS' OVERALLS

White Pique Overall, in sizes from 4 to 6 years. Regular \$1.25 values, Friday \$0.50
See View Street Windows.

Special Offerings in Boys' School Suits Friday and Saturday

TWO large shipments of Boys' Suits have just arrived and they are being marked off ready to go on sale Friday. Altogether there are 400 Suits and they are to be sold as follows:

100 Boys' Two-Piece Suits, made up in double-breasted style with bloomer pants in all the latest shades and patterns of greys and greens and grey mixtures. Strong, serviceable school Suits, well-made and finished to stand lots of hard wear. All sizes from 26 to 34. Special value for Friday and Saturday, per suit \$3.75
300 Boys' Smart Suits in tweeds, serges and worsteds, in a large variety of new shades and patterns and all in the latest double-breasted or Norfolk styles, with bloomer pants. Smart, manly suits that your boy will be proud to wear. All sizes from 22 to 35. Special value for Friday and Saturday at \$4.50 to \$6.75
Boys' School Pants in heavy cord effects and tweeds, made up with double seats and knees. Very strong and serviceable. Friday special at 85c to \$1.35

A Special Sale of Silks at Half-Price

This is a collection of various quality silks and includes some very strong values. Chiffon taffetas in stripe, plain and shot effects, Paillette, Messaline and d Surah silks in a good range of shades and patterns. Widths are from 20 to 40 inches and the regular values are \$1.50. Special sale price, per yard, 75¢.

—Main Floor

Boys' Serviceable School Boots

We have made a special study of Boys' Footwear, and the lines we quote here are goods we can recommend with every confidence. If some of the lines cost at the outset a little more you will find it to your advantage in the long run.

Boys' Extra Strong English-Made Boots, with box calf uppers, and best solid leather soles.
Sizes 1 to 5. Per pair, \$2.50
Sizes 11 to 13. Per pair, \$2.25
Sizes 8 to 10. Per pair, \$2.00

Boys' Black Calfskin Blucher Boots, solid leather throughout and every pair guaranteed to withstand the roughest wear. All sizes. Per pair, special \$1.95

Boys' Scout Boots—This famous line of boots for boys is carried in all grades. They cost a trifle more, but as most parents know the value is much greater in proportion, therefore well worth the extras. All sizes, and prices from, per pair, \$2.50 to \$4.00

Hardware and Crockery Specials for Friday

Tin Wash Pans—20 quart capacity, well made, and finished with copper wire handles. These make good kneading pans. Regular 35c value. Friday \$25¢

Galvanized Iron Buckets—Strong and well made and finished. Special, Friday, each 25¢

Steel Fry Pans—In three large sizes. These are made with a convenient length handle, which does not take up too much room or get in the way. Regular 50c values. Friday, each 25¢

A 49-PIECE DINNER SET FOR FRIDAY, \$3.25

This is a chance for those who don't require a full 97-piece set. These sets are manufactured in a good, useful, wearing quality English semi-porcelain, and there are two colors to choose from, greens and blues, of rather neat garland design. Each set comprises 6 dinner plates, 6 soup plates, 6 dessert plates, 6 fruit plates, 6 butter plates, 6 cups and saucers, 2 platters, 2 covered vegetable dishes and 1 sauce boat.

Special Sale, Friday, \$3.25

You Will Save Money, if You Buy Your New Range Now

The Brighton Steel Range represents a very high standard of steel range construction and embraces every improvement that ranges of quality contain. It has an attractive appearance, being made from heavy blue steel with handsome nickel-plated mountings. The range is fitted with double grate, thereby making it possible to successfully and economically burn either coal or wood. The oven is made of heavy steel, protected and strongly braced to prevent warping or buckling, and aluminum inside, making it easy to keep clean and bright. Come and let us demonstrate the many special features of this stove. The opportunity to secure one at such a reduced price should not be missed.

15-inch oven and high warming closet. Regular price, \$45.00. August Sale Price, \$37.50

17-inch oven and high warming closet. Regular price, \$42.50. August Sale Price, \$37.50

Good-Bye Summer.—Ho—we should miss you but for the ice cold creamy Humber. 10¢ per glass "at The Kaiserhof."

Meteorologist Without Assistants.—Baynes Reed, the provincial meteorologist, is still without any assistance in his work at the meteorological station at the post office, Napier Denison having been sent to Dawson and Atlin to examine the stations there, and the junior assistant being with the militia at Nanaimo.

Thunder Storm Kills Cattle.—About two weeks ago, during a heavy thunderstorm which occurred on one of the hottest days experienced in the Nicola Valley this summer, five cattle which were lying in the shadow of a tree at Clapperton, on the Nicola river, were struck by lightning and killed, the tree which they had sought as shelter from the storm, being consumed by fire.

When Your Glasses Break remember that I can match and grind any lens that is made. Frank Clugston, Optician and Optometrist, 654 Yates St. (corner Douglas). Upstairs. "A business founded upon honor."

Moonlight Excursion To-night, out on the Straits, Hinton's Electric launch will leave the Empress steps for a moonlight trip at 9:30 p. m. to-night. Fare 25 cents.

Civil Salaries.—Members of the city departments who have been waiting anxiously for some indication that the aldermen seriously intend to push the revision of civil salaries this year, are getting doubtful if the question will be settled before the present council passes out. It has drifted along on one pretext or another for months, ever since the estimates were framed, and a promise given that this course would be adopted.

Hon. Joseph Bernier Here.—Hon. Joseph Bernier, provincial secretary of Manitoba, was in the city yesterday with Hon. Robert Rogers, minister of public works. Mr. Bernier was only recently appointed to his post in the Manitoba government. He is a son of Senator Bernier, of St. Boniface, and is a barrister. He formerly edited Le Manitoba, and first represented St. Boniface in the legislature of Manitoba in 1901. He is also a successful amateur dramatist.

Refugees Come In.—Four or five miners from the Extension mines came in on the noon train from the North and were looked after by the provincial police.

A Surprise Party.—Mr. and Mrs. Thomas Davis had a surprise party at their residence, Queen's avenue, last evening, the visitors being: Queen City chapter of the Order of the Eastern Star to the number of about 35 members.

Call of Fire.—Yesterday afternoon shortly after 4 o'clock the fire department was called to 2516 Shelbourne street, where a plumber's torch had caused a fire at the residence of D. Brown. The loss was trifling.

Building Permits.—Building permits have been issued to Robert Hetherington, for a dwelling house at 2349 Clark street, costing \$2,500, and to the Crystal Spring Water Company for an additional storehouse behind the premises on Richardson street, costing \$1,000.

Warrant to Be Issued.—Clyde Cameron defaulted when the summons charge against him of being intoxicated while in charge of a motor car was called in police court to-day. Inspector of Vehicles Palmer proved the personal service of the summons, and a warrant was asked for.

Taylor Brought Back.—Joseph Taylor, who is charged with intimidation of miners at Ladysmith, was brought back to the city last evening after a formal arraignment at Nanaimo, and will be kept in the provincial jail for the eight days remand granted to the crown. Frank Higgins appeared for Taylor at the Nanaimo hearing.

Charge is Dismissed.—For failing to return and give his name and address to a lad whom his car had knocked down on Yates street, C. C. Bland was to-day charged, but the charge was dismissed as the magistrate was satisfied he could not have been aware of the accident. Robert Thom, a C. P. R. telegraph messenger, told how the front wheel of his bicycle was caught by the hub of the rear wheel of the motor and damaged.

Constable is Complimented.—At a meeting of the police commissioners a complaint laid with the mayor against Constable Robert Duncan by W. M. Dean was inquired into. The charge was that the constable had brutally beaten a man whom he was arresting. The man was drunk and was being held by the officer until the patrol arrived. Next day he pleaded guilty and served ten days in default of paying his fine. It was alleged in the complaint that the man was not drunk. After hearing the complainant, the prisoner, the constable and other witnesses the commissioners came to the conclusion that the charge was quite unfounded, exonerating Constable Duncan and complimenting him on the manner in which he had performed his duty.

Don't Nurse Your Sorrow.—Billet yourself with us. There's cheerful comfort with moderate charges "at The Kaiserhof."

SUBDIVISION PLANS

Court Holds That Only When New Roads Are Shown Does Last Amendment Apply.

An important decision has been given by Mr. Justice Morrison in a matter affecting property-owners and realty men, who have been objecting to some of the provisions of the Land Registry Act as amended last year, by which owners are compelled to show a half-acre of thirty-three feet width around the external boundaries in order to have a subdivision plan accepted by the registrar.

It is declared by the judge that unless a subdivision plan shows new roads or streets the provisions of the act, which were made mandatory instead of permissive last session by the substitution of "shall" for "may," do not apply, and that the registrar must accept the plan.

The matter came before the court on an application for an order directing the registrar to accept a plan of subdivision of lands, the registrar having refused to accept it on the ground that it did not comply with the act, and that the consent of the attorney-general had not been obtained dispensing with these requirements.

At the hearing of the application W. J. Taylor, K. C., acted for the petitioners and argued that unless new roads or streets were shown on a subdivision plan the statutory requirements did not apply. There being no new roads shown on the plan in question there was no justification for refusal to accept it. Neither was the attorney-general concerned in the matter under those circumstances.

H. C. Hanington, inspector of legal offices, in whose jurisdiction this matter comes so far as the attorney-general's office is concerned, argued along the requirement of a half road along the external boundaries was obligatory, and that the failure to provide for this barred the registrar from accepting the plan. Mr. Hanington explained that where the enforcement of the law in this particular would cause hardship, or where it was impossible to comply with it, the attorney-general was empowered to dispense with the requirement. In the case before the court he undoubtedly would have dispensed with it if he had been applied to by Mr. Hanington.

Mr. Taylor insisted on his contention that owners were not obliged to ask for any dispensation from the attorney-general unless there were actually new roads shown on subdivision plans presented to the registrar, and that the registrar has no power to decline to accept them.

His lordship ordered that the registrar accept the plan which was the subject of the application, holding that the objection made to it was not a ground for refusal.

BOOKS STILL ON HAND

Board of Trade Has Copies of Annual Report for Distribution; Many Free.

The main distribution of the annual report of the Board of Trade is nearly completed, but there are a few hundred copies yet remaining. In order that citizens who so desire might send copies to their friends or to any whom the development of Victoria appeals to as many copies as are desired can be obtained by application to the secretary of the board. Frequently also citizens call at the office and address the envelopes for mailing the reports; the board of trade defrays the postage.

The report has been found to be a useful compendium of general information packed into a very convenient space. Though brevity is the keynote, it is compiled in such a way that very few inquiries dealing with Vancouver Island and its trade cannot be answered from its pages. The items of general information dealt with briefly are: taxation, labor and wages, settlers' effects, climate, meteorological statistics, game laws, building permits, customs returns, excise revenue, shipping, post office statistics, bank clearings, municipal statistics, education, accounts of commercial charges, ordinary port charges, pilotage, Esquimalt Graving dock, Esquimalt Marine railway, Victoria Machine depot, British Columbia Marine Railway Company.

SHOWED LEAGUE FORM.

With Sladon pitching air-tight ball, the St. Francis baseball team won another game in the city senior league last night at the Royal Athletic park, defeating the Hills 6 runs to 2. Eddie Gleason did the umpiring, and was very much impressed with the work of Sladon, stating that he thought the St. Francis twirler could make good in professional company at any time. Sladon is a southpaw.

TOO MANY HOLIDAYS

Well-Known Merchant Objects to Superfluous Vacations; Letter to Board.

That altogether too many holidays are observed in this city is the contention of W. Christie, the well known ship's chandler, who made this assertion in a letter to the Board of Trade which was read at the last meeting of the council.

He called attention to the numerous holidays for special occasions and expressed the opinion that the observance is not good for the trade interests in the city.

He said in part: "In addition to the regular statute holidays we can call to mind one called to celebrate a baseball game, another to wax hilarious over a cricket match, another week of junketing from which we are just recovering, and then there is a week of fair ahead."

While some members of the board appreciated the reference made in the letter it was felt that the matter was one outside the province of the board. The holidays, other than statutory ones, are called by the elected civic representatives of the people, and it was felt that those who had any objections in this respect had recourse to the civic polls.

NEED MUCH LAND

Minister of Public Works Says Development About Drydock Ought to Be Provided For.

During the visit to Esquimalt yesterday the minister of public works saw the proposed site of the Esquimalt Graving Drydock at Lang's Cove from the harbor and the land side.

On returning from the site the minister said that in the placing such a dock it would be necessary to secure as much of the surrounding areas as possible, to provide against future development. He observed: "It is just as well at the outset to see that provision is made for future development. The establishment of the drydock will mean a great deal more than the construction of a great basin. It will mean the centrepiece of a great aggregation of industries associated with the functions and purposes of the dock. That specifically means shipbuilding and shipping."

The party left on the night boat from here for Vancouver.

TO EXHIBIT IN OCTOBER

Arts and Crafts Club Will Have Work on Show on October 16, 17 and 18.

At a special committee meeting of the Arts and Crafts Club last evening at the Alexandra Club it was decided to hold the annual arts and crafts exhibition on October 16, 17 and 18. Exhibits will be received by the committee on Monday, October 13. It was decided to repeat the prize-drawing which proved such a successful experiment last year, and it is anticipated that the exhibition will in every respect excel any previously held here.

Non-members will be allowed to exhibit as well as members, on payment of a small fee. Paintings, drawings and crayon sketches will constitute the largest part of the exhibition, but a large number of exhibits of needlework, metal-work, jewelry, plaster and others of the arts and crafts, will make up the collection. All branches of photography have been barred under the rules of the exhibition. Craft works need not be original, but this fact must be stated by the exhibitor. All pictures must be original. Further particulars may be obtained from the honorary secretary, box 539.

MANY VISITED SEATTLE

Excursion of Y. M. C. A. and Y. W. C. A. Yesterday Proved Great Success; Holiday-Makers Toured Sound City.

The elements, conditions and individuals conspired, to make the Victoria-Seattle combined Y. M. C. A. and Y. W. C. A. excursion yesterday on the E. S. Prince Rupert, an occasion long to be remembered. C. G. Raymond, who instituted the outing was the subject of many encomiums. Not one hitch occurred in the arrangements.

Captain Mackenzie, of the Prince Rupert, had his boat specially decorated for the occasion and with the assistance of the affable and pains-taking local manager, C. F. Earle, did everything in his power to add to the enjoyment of the passengers during the trip. A drum-head committee presented a special vote of thanks to all concerned in the management of the day.

With bunting flying and a company on board, the excursion left Victoria at 8 a. m. As the boat drew into the Seattle dock cheers were lustily given from a large gathering of the Seattle Y. M. C. A. on shore.

Special automobiles were in waiting, taking any who wished to go, through the residential districts of Seattle. Special trolley car rides took others for miles along the shores of the lakes. A cordial reception committee of the local branch gave welcome to their clubhouse, which had been decorated for the occasion, provided being made to lunch the visitors. The return voyage in the evening

Godowsky and Ysaie Figure in September Columbia Records

MAKE SELECTIONS NOW IF YOU WANT FULL CHOICE

Godowsky, world-renowned pianist and Ysaie, the world's supreme violinist—these two artists contribute to the long list of exceptional numbers in the September list of Columbia Double-Disc Records, just arrived. Godowsky's numbers are his first recordings under an exclusive Columbia contract. Ysaie has now been recording exclusively for the Columbia for some time.

Besides, there are many fine recordings of standard, popular and rag selections by artists known the country wide.

Columbia Records—double-discs—are the best records for disc-playing instruments that money can buy. They can be played on any disc instrument. Make sure that the "twin note" trademark is on the records; then you know you have the best.

was made under ideal conditions, the moon lighting up a sea that was glassy smooth.

NOT THE CARDINAL.

"Richelieu, of Paris" Was at the Empress Hotel Yesterday; Came on Business.

That select little coterie of Victorians who consider each day incomplete unless they have had a glance over the register of the Empress hotel to find out who is visiting the city, experienced an eerie little thrill yesterday when these words met their eyes: "Richelieu, Paris." Had the astral body of the great cardinal revisited the earth again and found no rest for the soles of its feet until he

reached the shore of the Pacific? The superstitions among the coterie shuddered involuntarily as they watched the elevator doors with trepidation for the appearance of the long crimson robe over which the pale drawn face with its hooked nose and piercing eyes used to strike terror into all.

But man is doomed to disappointment as the sparks fly upward. Instead of the haughty red-robed cardinal whose frown made kings to shake, there came a dapper little Parisian, immaculately garbed in modern habiliments. He was in Victoria on business. This descendant of a great line was as much unlike the cardinal of olden time as could possibly be imagined.

Shipping News from Day to Day

PROBABLY ANOTHER STOWAWAY VESSEL

Japanese Barque Taken Into Prince Rupert; Supposed to Be After Salmon Cargo

AUTHORITIES HAD SUSPICIONS AROUSED

May Have Landed Japanese at Isolated Point; Put Into Simpson; Captain's Story

What may turn out to be another Japanese stowaway ship is at present at Prince Rupert, according to news brought south by the officers of the G. T. P. steamer Prince Rupert, which came into port yesterday from the north. Last Saturday a Japanese barque, the name of which was not learned by the Rupert's officers, reached Port Simpson and the customs officials there being suspicious of the craft, at once wired to Rupert and the authorities there dispatched the fishery protection cruiser William Joffe to bring the ship into port, where she arrived the following day.

The Prince Rupert officials at once started an investigation to find out if any Japanese had been landed in British Columbia. The captain persistently stated that he had not done so, but the circumstances of the case seem so peculiar that the authorities are rather inclined to doubt his word. The barque is a three-masted and has steam auxiliary power, which drives her along at five knots an hour.

Coming For Fish Cargo.

According to the captain's statement he was ordered to this coast from Japan to load a cargo of salmon, part of which was to be taken on at an Alaskan port and the remainder at Fraser river canneries. He produced articles and papers showing that he had signed on his crew at Yokohama and sailed from that port for the trip to Alaska and the Fraser. He, however, stated that after being out a few days he encountered a terrific storm and was forced to return to a small Japanese port to repair the ship.

The fishy part of the story is that the captain thought that Port Simpson was an Alaskan port. Many land-lubbers might make that mistake, but a seaman who uses the Admiralty charts could not make such an error. Putting two and two together the authorities have fixed up a theory to the effect that the ship left Yokohama all right, but that she put into this small port to pick up a big list of stowaways who wish to get into this country without passports. Then she crossed the Pacific and put the passengers off at some isolated place, not far from civilization, later putting into Port Simpson. The captain, however, has kept a very exhaustive log, both in Japanese and English, showing the ship's progress.

When the Joffe reached port Simpson the captain was willing to follow the tug into Prince Rupert. Captain Thompson, of the Joffe took the ship into the quarantine station at Derby Island and she will remain there until the authorities come to some settlement as to what to do with the craft. The fact that several Japanese craft have been caught off the coast with stowaways on board caused the Rupert authorities to be all the more suspicious of the barque.

PUEBLA DUE AT MIDNIGHT.

At midnight to-night the Pacific Coast steamship City of Puebla, Capt. Harris, will arrive in Victoria from San Francisco with a large list of passengers and much cargo.

I like the haughty behaviour of the post office girl; she represents the dignity of labor.—Lady Russell.

INCA, SECOND SHIP, FIXED FOR LUMBER

American Schooner Coming in After Barquentine Alta to Load at C. P. S. Mills

Announcement was made this morning by the officers of the Canadian-Pacific Sound Lumber Company that the American four-masted schooner Inca, Capt. Rasmussen, will arrive here on or about November 1 to load a cargo of lumber. This makes the second vessel to be chartered by the local mills within the past few weeks. The American barquentine Alta, Capt. Scott, now on her way to this coast from Australia, was the first vessel taken to load a Douglas fir cargo here.

Last April the schooner Inca left Portland, Ore., with a cargo of lumber for Sydney, N. S. W., and arrived there on July 1. She later shifted to Newcastle, Australia, but it is understood that she is bringing a cargo of coal either to San Francisco or Vancouver. It is not known at present as to the destination of the Inca's cargo, whether it will be South America or Australia, but it is more than likely that it will be the latter.

One of Billings' Ships.

The Inca is one of Geo. Billings' schooners, and was built at Port Blakeley, Wash., several years ago. She is 1,014 gross tons and is a similar craft to the Polaris, which took a lumber cargo out of here last summer. She carries close on to one million feet of timber, almost half of which is stowed on deck.

According to the charter the Inca is to be here ready to load on November 1. The mills will have filled the Alta with timber and she will be well away on her voyage to the Antipodes by that time. It is not known just when the barquentine will show up off the Cape, but she is looked for any day, as she is out 70 days from Sydney. She is supposed to be here

on September 1 to load, but as she has a coal cargo to put off at Vancouver it is likely that it will be well on towards the middle of the month before she is piloted up to the inner harbor mills.

When the Joffe reached port Simpson the captain was willing to follow the tug into Prince Rupert. Captain Thompson, of the Joffe took the ship into the quarantine station at Derby Island and she will remain there until the authorities come to some settlement as to what to do with the craft.

AMERICANA LOST AT SEA

San Francisco, Aug. 21.—The barquentine T. P. Engh, 119 days out from Tacoma, and the schooner John C. Meyer has arrived at Sydney 72 days out from South Bend, Wash. The schooner Americana is now out 169 days from the Columbia river for Sydney and is practically given up as lost. The passage of the Engh is an exceedingly long one compared to other similar voyages, and when it is considered that the Americana is out 48 days longer than the Engh, little hope can be held out for her.

The British ship Daneyve recently made the run from the Columbia river to Sydney in 64 days. The James Johnson, from here to Sydney in 58 days, and the Henry K. Hall from the Columbia to Sydney in 74 days.

LANDS RECORD SILK CARGO AT VICTORIA

Mexico Maru Puts Off 105 Bales Here To-day; Fancy Ball Crossing 180 Meridian

One hundred and five bales of silk, valued at \$23,500, and comprising the largest shipment ever discharged at the Port of Victoria, was put off here to-day by the Osaka Shosen Kaisha liner Mexico Maru, Capt. Kobayashi, which berthed at the outer docks at 8 o'clock this morning. The shipment is being sent through by the C. P. R., and will be shipped from here to Vancouver, and thence to New York. The reason for the C. P. R. to make a shipment via the Osaka boat and Victoria is not known. The Japanese steamship takes three days longer than the old Empresses in crossing the Pacific, and six days more than the Russia and Asia. In the past about three or four bales of silk generally have been discharged from the Japanese liners, but to-day's consignment was the largest ever landed.

For the first time since the death of the late Emperor of Japan, the crew of the Mexico Maru marked the occasion of crossing the 180th Meridian with a fancy ball in the steerage quarters. The 180th Meridian is much in latitude, and in order to provide a celebration similar to the toasting of Father Neptune at the line in the middle of the globe, the Japanese hold a big entertainment, including a dance. Prior to the death of the Mikado these ceremonies were held every trip, but

SCHOONER WHICH IS TO LOAD LUMBER HERE

FOUR-MASTER INCA.

they were suspended during the year of mourning.

Heard the Fighting.

The officers on the Mexico, while she was lying at Shanghai loading cargo for this coast, heard the rifle shots of the Chinese fighters, who were engaged in a skirmish on the outskirts of the town. At times the shooting was very rapid, and that the wounded soldiers were brought into the hospitals for treatment.

On the trans-Pacific voyage the Mexico encountered the finest kind of weather. Light banks of fog were met at intervals, but when the ship was making the land the weather was as clear as a bell.

The passenger list on the Mexico was light, she having all told but 86 passengers, 31 of whom disembarked at this port.

The Mexico was filled with cargo, and she discharged 350 tons of rice, sugar, peanuts, miso, and general merchandise at this port. The Tacoma silk shipment is valued at \$475,000.

QUEEN ALEXANDRA'S CASE IS NOW BEFORE COURTS

San Francisco, Aug. 21.—The owners of the British steamer Queen Alexandra, which was out here a year ago last February in the Maple Leaf line and was badly damaged on the Columbia River bar, have ordered action to be started against the Firemen's Fund Insurance Company for \$3,000. The sum of \$10,000 was paid the owners of the vessel on a general average claim subject to the adjustment which later showed \$18,000 due them. The insurance company has in the meantime filed suit for the original \$10,000 paid the owners of the vessel on the claim that the vessel was unseaworthy when she struck.

The case will be interesting, inasmuch as it will bring into legal conflict the British and American ideas of general and particular averages. The vessel struck the bar and was forced through under full steam with heavy damage.

The British idea is that the damage was received while trying to save both vessel and cargo. The vessel might have struck on the bar and been wrecked and the average should be general. The American idea is that the Queen Alexandra took her own chances in going through and the average should be particular.

"Is the man your sister is going to marry rich?" "Naw; every time the marriage is mentioned he says: 'Poor man!'"—Houston Post.

INDIANS HAVE SAME NAMES ON ARTICLES

Five Native Hunters at Ahousat Were Called Charlie; Making Out Claims

In order to have their claims ready to present to the sealing commission upon its re-opening here on December 1, the Indians from the West coast are visiting the shipping master, Capt. Geo. Kirkendale, to receive their time. A great deal of difficulty is being experienced in getting the right natives, there being so many with the same names.

Yesterday an Indian from Ahousat, who was known when sealing as Charlie, visited the shipping master and requested that his time be made out. On glancing through the articles Capt. Kirkendale found that there were no less than five Charlies signed on at Ahousat. There was Fat Charlie, Long Charlie, Old Charlie, Young Charlie and Charlie Bishop. Which is which is the problem which has to be solved.

Heavy Claims Expected.

It is expected that the claims submitted by the Indians will be very heavy, although it is not likely that they will reach such fabulous heights as those of some of the white men. Before the Paris Award Regulations depreciated the catches, there was little difficulty in getting the Indians to go sealing. When they found, however, that they could not seal during May, June and July many of them decided to stay ashore and work at the canneries. The Indians gradually dropped out of the business, until in the last years of the industry it was with great difficulty that the owners could secure enough hunters to send their vessels to sea. Some of the Indians stayed with sealing from 1889 until 1911, when they were forced to retire, and no doubt they will file claims which will enable them to build mansions and live in comfort for the rest of their days.

It will take some time to straighten out the claims, but the Indians' case will be well prepared for presentation when the commission returns from the east.

Rupert takes on heavy shipments for Granby.

With one of the largest cargoes ever taken on at this port by a Grand Trunk steamer, the Prince Rupert, Capt. McKenzie, got away from Victoria this morning at 10 o'clock for Prince Rupert and Granby Bay. The stevedores started work immediately after the return of the steamer from her excursion to Seattle last night and worked right through until her sailing hour. One hundred and twenty-five tons of cargo were placed aboard, including heavy shipments of iron, steel and other structural material for the Granby Bay Smelting Company.

The Rupert also took out a large list of passengers from Victoria, including the following: G. Rack, W. H. Lambeth, R. McDonald, W. E. Tickle, C. R. Murray, Mrs. J. Van Zanten, C. M. Martin, Miss J. S. Fotheringham, James Rutherford, Mrs. J. A. Lindsay, Miss C. Shruttsall, Miss F. Noble and E. B. Riley, and J. F. Arbuckle, T. H. Kelley, H. J. Jones, Chas. Pratt and J. A. Souby, members of a survey party, going to Queen Charlotte City.

GOLDEN GATE CHARTERS

San Francisco, Aug. 21.—The British steamer, Forer, which has just arrived on Puget Sound from Nome, where she delivered a cargo of Australian coal, has been taken on time charter at \$5. by the Robert Dollar Company. She will load lumber on the Sound for Shanghai and return with Oriental cargo.

The Norwegian steamer Terrier is 90 days out from Australia for Nome, and providing she makes the same time as the Forer, should arrive August 30. The Terrier is under charter to the American Trading Company to load lumber on the Sound for Australia.

The British steamer Epsom, at Bremerton, discharging coal for the government, is reported chartered for lumber from Puget Sound to Australia at either \$4. 95, or \$5. 80 for as can be ascertained the British steamer Clayley, also at Bremerton with government coal, has no outward charter as yet.

Prisoners at the universities of crime.—Prince Kropotkin.

WILL FREE BODIES BY DYNAMITING STEAMSHIP

Seattle, Aug. 21.—The divers who were sent north to explore the sunken wreck of the steamship State of California, which was lost in Gamber Bay, Alaska, Sunday, will be unable to examine the vessel because the water in which she sank is more than 200 feet deep, and divers cannot work at a greater depth than 100 feet. By means of explosives the wreck can be shattered, however, and most of the fourteen bodies imprisoned in the wreck may be recovered.

Advices received from Juneau say that all of the survivors who were taken to the hospitals there are recovering rapidly and soon will be able to leave for their homes. Mrs. Peter Olsen, of New York, who was low with pneumonia and who was not expected to live, rallied yesterday and is out of danger.

Miss A. J. Wilson, who boarded the State of California at Prince Rupert and

BEES TAKE THIRD STRAIGHT FROM PIPPINS, PLAYING ERRORLESS BALL

Nick Williams' Pet Hurler, Stanley, Gets Bad Reception; Score 8 to 2; Narveson Pitches Perfect Game

The Bees made it three straight over the Portland Pippins yesterday at the ball yard, "Swede" Narveson serving up some fine pitching and once more shattering the hopes of the Portland pennant-seekers. The score was 8 runs to 2. Nick Williams trotted out three pitchers in order to stave off defeat and two pinch hitters, but the Bees made an early start on the Portland pet heaver, Stanley, gathering a full seven runs off his delivery in the first, second and third innings, and one more for good measure off Pitcher Carson in the eighth. The Southern pennant hopefuls gathered a lone run in the fourth and sixth, one coming through an error and the other they earned.

To the average spectator it looks as though the visitors are too anxious to win and overdo themselves. It is certain their infield is not playing true to its form. While the fielding errors have no doubt helped the Bees in their three victories, it cannot be said that they have not hit the Portland pitchers, deserving the wins. Had Portland the two additional runs, Lamb, still already played they would now be near first place, Williams' intention having been to leave this city with the premier position just about reached. His plans have been badly upset, and the Bees are climbing to the 500 mark.

Scoring Started Early. Scoring started right at the start. After Crum struck out, Rawlings was walked, this being repeated in the second and third innings. He had a fine day at bat, although he gathered no hits. Alberts walked, Meek squeezed in a scratchy hit, and two runs were scored when Swain doubled. In the second Shea got on an error when Bancroft over threw the initial sack. Narveson furnished the surprise of the afternoon by beating out a bunt. Crum forced Narveson, but Alberts drove in the two additional runs. Lamb singled in the third, Narveson tripled, scoring Lamb and Crum and Rawlings drew passes, the former scoring on another timely bludge of Alberts. The feature throughout was the all round playing of Narveson, who looked a big leaguer every bit of the way. Melchior opened the fourth inning with a single. Mahoney did likewise, but went out when Narveson caught him at the plate, Danny Shea converting it into a pretty double play when Coltrin grounded to the local pitcher. Previously Melchior had been given a base on balls. Melchior scored when Rawlings made a miscue of Helman's grounder. Melchior singled again in the sixth and scored on Coltrin's single. Narveson was pitching fine ball. He allowed hits in the second, third and fourth innings.

Williams made another effort as on the day before to get some runs in the sixth. He again substituted Callahan for King, and sent Todd in to hit for Martinoni, who took up the pitching after the third. Narveson struck both of them out with his speed ball, and some corners which were given him by Umpire Casey. Al Carson, ex-Portland,

Seattle	5	3	.625	Spokane at Seattle
Spokane	3	5	.375	Seattle at Spokane

land-Venice pitcher from the Coast League, twirled nice ball except in the eighth, when Crum gathered a two-base hit, took third on a passed ball by Williams and came on Rawlings' sacrifice fly.

Made Fine Catch. Swain, who is proving Portland's greatest obstacle in the present series again started, pulling a nifty catch off Guigni's long fly in the second for the third out, and grabbing two doubles. He put up a couple of long flies, which looked for a moment like home runs, but the wind was blowing from the North, and kept the sphere from getting the benefit of any breeze. Victoria and Portland each pulled off a fast double apiece.

Team	W.	L.	Pct.	To-day's Game

MINTO CUP CHALLENGE OF V. A. C. TEAM UNANSWERED

Vancouver, Aug. 21.—Although a Minto cup challenge was dispatched a week ago, the officials of the Vancouver A. C. lacrosse team are still awaiting a reply from the trustees. Sir Richard McBride, one of the trustees, wired from Ottawa on Monday that it was impossible for him to take up the matter as he was leaving immediately for the Old Country, and he suggested that the other trustee be asked to consider the challenge. Now an effort is being made to learn the identity and whereabouts of the other trustee. Until a reply is received and New Westminster duly notified of the cup challenge, no action can be taken by the cup holders or challengers.

Hope is a Good Breakfast—but a bad supper. The best meal is the Business Men's 35c Lunch at The Kaiserhof.

REMARKED ON THE SIDE

Which League is Fastest? It is hard to say which major league—American or National—is the stronger this year. What Grantland Rice calls the Granddaddy is designed to throw light on the subject. This, as it is understood, is up to August 1 and no further. Up to that time, the American leaguers were consuming many more precious moments in visiting off, exhibitions of the national pastime than were the National Leaguers, which would indicate that the players in the junior organization were generally older than the athletes in the senior organization, and that Tom Lynch's umpires were hustling things along better than Ben Johnson's referees. Lynch's umpires, however, have not always been able to keep the gladiators moving along at a brisk pace, for see what happened in Chicago on the afternoon of July 6, when Malcolm Wayne Eason was compelled to forfeit a game to the Cards because the Cubs stalled. That didn't show that the play in the N. L. this season was very fast.

The Shooting Season. In the game regulations published in the Provincial Gazette, sportsmen are informed that they may shoot deer up to the end of the year. In the placards issued by the department, sportsmen are informed that the season for deer will end December 15. The public is now wondering when the deer shooting season actually ends.

CHESTER MCINTYRE RETIRES FROM V. A. C.

Has Given Up Work at Club; His Services Will Be Greatly Missed

Chester McIntyre, the well-known popular athletic promoter, who is now manager of the Brighthouse Arena, has resigned from his position as physical director of the Vancouver Athletic Club and his successor is now being looked for. McIntyre was the best physical director the Vancouver club ever had and he will be sorely missed by the Terminal City athletes.

It has now been decided that wrestling and boxing at the club will come under separate instruction. Both in the past have been under the personal direction of McIntyre. In the former he was a well-known exponent of the game, having met some of the best wrestlers in the United States and Canada.

Applications for a new supervising physical instructor will be called for this month and an appointment will be made before the winter sports start in.

McIntyre will be remembered in this city, as he met Zyrsko at the Victoria theatre, the latter of course winning easily. McIntyre, who is a lightweight wrestler, was no match for the man who is now on the trail of Gotch, the world's champion. McIntyre, however, has beaten some of the world's best lightweights and is still in the ring to meet the best of them.

MOY AND CAMPBELL WILL MEET SATURDAY

Will Be Ten-Round Elimination Fight; Winner to Meet Ritchie Labor Day

Vancouver, Aug. 21.—Ray Campbell, of Seattle, Wash., and Eddie Moy, of Allentown, Pa., will battle between themselves for the privilege of meeting World's Champion Willie Ritchie, in the Brighthouse Arena, Vancouver, Labor Day afternoon. Moy and Campbell have been matched to go ten rounds on the afternoon of Saturday, August 23, and the winner will be automatically matched to meet Ritchie on Labor Day.

Moy was first signed for the match with Ritchie, but so many of the local boxing fans favored Campbell, whose recent fifteen-round battle with Freddy Welsh created a profound local impression, that Manager Chet McIntyre finally decided to give the Seattle boxer a chance. So the elimination bout was staged for Saturday of this week and popular prices will prevail.

The last arrangement was completed when Ritchie, through Manager Harry Foley, signed articles to meet the winner Labor Day. If Ritchie comes through the Labor Day battle still holding the title, he will meet Freddy Welsh in the same arena on Saturday, September 20, for the world's lightweight title.

Moy and Campbell will weigh in at 135 pounds at ringside for their elimination bout. Both were training when matched. Moy using the quarters at the Imperial rink, English Bay, fitted up for Welsh, while Campbell has moved into Welsh's old gymnasium at the Stratford hotel. Ritchie is also in training, starting his hard work this week, and boxing in his new pavilion at Bert Halsey's Eburne hotel, near the arena, every afternoon.

ALL-STAR LACROSSE TEAM MAY COME FROM EAST

Toronto, Aug. 21.—An all-star team from the "Big Four" will probably invade the West this fall, playing games at Westminster and Vancouver the last of September. Charlie Querrie, manager of the Tecumsehs, has been requested to take charge of the project, along with "Billy Fitzgerald," the star home player of the Toronto, who is very popular on the coast. Fitzgerald and Querrie are to select the team, and good guarantees are held out to them to take a team West. The team would play two games at Westminster during the fair, and four games in Vancouver, two with each of the teams in Vancouver.

GERMANY WILL SEND ATHLETES TO FRISCO

Berlin, Aug. 21.—James E. Sullivan, secretary of the amateur athletic union, today obtained the promise that a team of German athletes would be sent to San Francisco to compete at the Panama-Pacific Exposition in 1915. In return for this courtesy, it is considered likely that the American team, which is to compete in the Greek Olympic games, known as the "local cycle" in the spring of 1914, will, on leaving Athens, make a trip to Berlin and participate in an athletic meet there.

AS SEEN FROM THE PRESS BOX

The local management figures on Kautschner winning his game against Portland, as well as Fitzgerald and then the staff will start over again. At that rate when will the Pippins win?

The present road trip is about the most disastrous the Pippins have suffered since they started to climb. In fact, it is the first three straight they have lost in several weeks.

Fitchner will twirl again either Saturday or Sunday, when the teams play at Tacoma.

The Bees return here with the Spokane Indians on Monday for a week. This will be the last series of games but one here this season.

YACHT SPRIG CHOSEN

Marblehead, Mass., Aug. 21.—After the Sprig, owned by John L. Saltonstall and sailed by R. de Boardman, had conclusively shown her superiority in two trial races to pick three American sonder boats to meet the three German challengers next month, the Eastern Yacht Club committee selected her as the first of the defenders of the President Wilson and Governor Foss cups. The committee also eliminated from further competition the Otter, owned by Crane and Foster.

TORONTO GETS HEARNE

President McCaffrey, of the Toronto ball club, is visiting New York to arrange the Hearne deal. Hearne is the pitcher who twirled a full 20 innings without being scored on. He was secured through Manager McGraw's good offices in the spring, and though it is reported that New York is paying \$5,000 for the pitcher the chances are that it is only a case of the Giant leader recalling his own property.

HANDICAP CROQUET MEET.

The Victoria Lawn Tennis Club grounds will be the scene of a handicap croquet tournament commencing next Monday and ladies' doubles, men's singles, men's doubles. An entrance fee of one dollar will be charged for each event and partners will be selected by a draw. Entries must be in by Friday night to Miss Buchart, P. O. Box 681. A large entry list is expected.

SEATTLE SIGNS TONER.

Seattle, Aug. 21.—"Red" Toner, the pitcher recently released by Victoria, was signed by Seattle. Toner was to assist in stopping the rush of the Beavers. Toner began the season with Spokane. He pitched good ball, and was traded to the Bees in a deal whereby Smith went to the Indians. "Kid" McIvor has returned to Seattle also.

LACROSSE CHAMPIONS.

Prince Albert, Sask., Aug. 21.—Prince Albert won the championship Lacrosse League here yesterday, 2-1.

SAYS HE WILL ASK TENDERS FOR PIERS

Minister of Public Works Indicates Plans Will Be Approved Next Month

MR. FOSTER ADVISES STUDY OF ORIENT

Minister of Trade and Commerce Speaks of Loyalty of Australians

Some 150 of the leading citizens of Victoria assembled at the board of trade banquet last evening to hear Robert Rogers, minister of public works, and Hon. G. E. Foster, minister of trade and commerce.

The former dealt with the public works contemplated and in course of construction in and around Victoria harbor, and declared that the government of Canada was willing to meet the tremendous demands of the ports of British Columbia in order to find a western outlet for grain of the prairies. The latter urged the people of this country to study the Far East, as the nations with which they, particularly on the Pacific slopes, must look to do business in the future, and coming fresh from the Antipodes, he assured his hearers of the loyalty of the Australians and New Zealanders as men who cherished the same ideals as Canadians, and had to face the same pressure from the outside world.

H. B. Thomson, M. P. P. presided, the function being held in the Empress hotel ballroom. At the cross table were, in addition to the two ministers, Senators Macdonald, Mayor Morley, G. H. Barnard, M. P.; F. H. Shephard, M. P.; R. F. Green, M. P.; Hon. D. M. Eberts, Hon. Price-Edison, Hon. W. R. Ross, Hon. Thomas Taylor, J. A. Mara and C. H. Lugin.

The speaker of the assembly, Hon. D. M. Eberts, proposed the toast of the Government of Canada, referring to British Columbia as the sentinel for the whole west coast of Canada, and said that the people in Canada had been fortunate in enjoying the benefits of stable government.

Ethics of Government.

Hon. Mr. Foster pointed out that he was there as a casual visitor, and declared that the brunt of the speech-making must rest with his colleagues. The previous speaker had referred to the advantages of true, honest and stable government.

"We need," he said, "both as individuals and as a country to anchor ourselves to that. There are too many varying currents and billowy tendencies on the surface of the great ocean of life to wrench us from the moorings of real stable honest good government, and the principles which underlie them. The first element in government is to understand and to have a sense of its mighty responsibility. The man who steps from the election threshold into the Privy Council of this or any country with a light heart is in need of reasoning with himself and getting himself into a better frame of mind."

"Government," he continued, "is not done from Ottawa; the Ottawa personages in the government are a very small part. In the government of this country, the real part of the government exists in the homes of the people, the homes of those who think great, deep thoughts, which, though they may never come to the surface, have yet their influence on those who administer a country."

Great Things Coming.

In this province, he pointed out, people expected great things in the next few years. The proposal of the toast had indicated that in five years the Pacific ocean would have displaced the Atlantic as the theatre of the world's trade. He was personally not so enthusiastic (laughter)—but at any rate in the long future such must be the case.

"We have to trade," he went on, "with the millions of China, the dense populations of the east with the mighty resources almost untouched, and when these countries have had an opportunity to readjust themselves with stable forms of government, and well ordered systems of procedure, what will this Pacific ocean become?"

Future Battleground.

"You in British Columbia are on that strip of Canada next to that great theatre, and in common with the rest of Canada you must study the Far East. The Pacific will be the great battleground for the future of Canada, both in the industrial and commercial world, and just as the nation is the aggregation of the individuals so must we as individuals apply ourselves to that study, and examine the Moslems, the ideals and the conditions of those nations with which we have to do business. Thus prejudices will be swept aside, and we shall understand their point of view. Two peoples in order to understand and to appreciate each other sympathetically must understand each other, and study is essential to that understanding."

"We want that co-mingling experience born of personal knowledge, and personal acquaintance, thereby creating that respect for each other which is essential for national transactions as for individuals in business. Just as you cannot put your hand upon individuals without finding excellencies and attainments, so you cannot with a nation find any without these attainments, and to British Columbia, in geographical proximity with the Orient, I would say, study and find out what is in these countries. By knowing their conditions, their advantages, their possibilities, their excellencies and their tendencies you will materially profit."

Australia Loyal.

"Now on the first occasion I have

HE NOW BELIEVES IN "FRUIT-A-TIVES"

Because He No Longer Suffers With Headaches

Taylorville, Ont.

"I was a sufferer from Terrible Headaches for over two years. Sometimes, they were so bad that I was unable to work for days at a time. I took all kinds of medicine, was treated by physicians, but yet the Headaches persisted. A short time ago, I was advised to try 'Fruit-a-tives' and I did so, with I must confess, very little faith. But after I had taken them for three days, my Headaches were easier and in a week they left me. After I had taken a box of these tablets, my Headaches were quite cured. My appetite was always poor and my stomach bad; and now my appetite is splendid and my digestion excellent."

I had become thin and weak from the constant Headaches but now not only have I been cured of all these awful Headaches, but my strength is growing up once more and I feel like a new man."

BERT CORNELL.

spoken since I came from my extended tour I want as a Canadian to say that in my three months in New Zealand and Australia I have met a noble set of men and women. They are men of like passions with ourselves, of a common blood and lineage, and descent, men with ideals like us—the grand British ideal of honest fair play, progress and enlightenment.

"Is there a danger that Australia will drift away from the Empire? There is as much danger of Australia as there is of Canada. With us they cherish the same ideals; with us they feel the same pressure of the outside world, and together we are admonished that we must keep united if we are to remain supreme."

The chairman submitted the toast of "Our Guest," Mr. Thomson quoted statistics of the growth of Victoria, declaring the necessity for the government taking a larger share in the development of the port.

Mr. Rogers Speaks.

The Minister of Public Works first paid a tribute to the development of the port since his last visit and to the courtesy of his hosts of the board of trade.

"Gentlemen," he proceeded, "your enterprise and energy, as well as your favorable location and your favorable conditions, impress upon the government of this Dominion certain responsibilities, and as the minister charged with the responsibility of the public works department I am here to-night on my trip of inspection in order that I may better understand, not alone the wants and requirements of the people of this province, but the wants and requirements in connection with the development of our great harbors here and elsewhere."

He alluded to the persistent effects made to draw his attention to the needs of Victoria this year, and hoped that the works when carried out would be done in a business-like manner, which would redound to the credit of the city and of the government responsible for their construction.

Will Remove Rock.

Turning to the trip in the Salvor, he promised to blow out the rock which impeded navigation in the inner harbor, for he believed the people here must have been patient to have allowed it to remain so long.

"But you have not only a very rapidly growing coastwise trade," he proceeded, "you have an ever increasing ocean trade, and as a result of that a further obligation has been placed on the government for the provision of the necessary requirement at the outer harbor."

Mr. Rogers referred briefly to the work at the breakwater and to the contract for two piers. In the latter matter he stated that on his return to Ottawa he would take up with the engineers of the department the best method to be adopted, and would have tenders called for at once.

This development of the ports of British Columbia, he said, was inevitable under the necessity of finding an outlet for the product of the western prairies and the desire to find accommodation for the shipment of grain in ports which were open all the year round. If trade of that kind could be developed it would not alone be of advantage to the province of British Columbia, but of advantage to the great prairie provinces as well.

"You have undoubtedly a great province," he continued, "and in my judgment you are a rival for the first position among the family of provinces which form the Confederation of our Dominion."

Dry-Dock at Esquimalt.

"With the development of this traffic comes an additional responsibility to the government of the Dominion, involving the protection of the commerce of the nation. One of the first requisites is the provision of dry-docks."

Having alluded to the decision of the government to build three national dry-docks, he explained that one of his missions was to examine the proposed site for the dry-dock at Esquimalt.

"The dry-dock," he declared, "as it is proposed to be constructed, will be of such a nature as will not only be able to take care of any ship upon the Pacific, but it will be a dry-dock capable of receiving in times of necessity not alone the mighty New Zealand, but the largest ship which floats upon the high seas."

In conclusion the minister said he promised to send an engineer to report upon the Seymour Narrows bridge, whereupon there were cries of "British Engineer," but the minister finished his speech without giving any undertaking on the subject.

"Auld Lang Syne" and the National Anthem closed the proceedings.

BACK FROM WALKING TOUR THROUGH JAPAN

Lindley Crease, Well-Known Victoria Barrister, Had Wonderful Trip

TELLS IMPRESSIONS OF PEOPLE AND MANNERS

Blazed a Trail Across the Mountains; Met Rt. Hon. James Bryce

There is something infinitely alluring in the idea of a walking tour through Japan, the land of romance, the precocious child of the great Far East. To tramp all day among some of the most magnificent scenery in the world, amid the scent of mulberries and swaying medlars; to blaze a steady trail where mountain alternates with valley and where climatic agencies have smoothed and modified everything rugged or abrupt, until an impression of undulation rather than of grandeur is suggested; and at evening time to rest in some quiet inn of an old-world town where the fret and hurry of modern civilization have never reached—must be to the traveller a journey to be remembered for ever.

Such has been the pleasant experience of Lindley Crease, the well-known Victoria barrister, who has just returned from a tour of this kind through the Land of the Rising Sun. Mr. Crease started from here early last June and stayed two months. During that time he set off to walk across the country with the idea that to see a little of a place well, is better than to see much of it badly. He was accompanied by a single companion in the person of Captain Kaulbach, a Canadian. Like himself and adjutant at Kingston.

It was not as an ordinary traveller that Mr. Crease went through the country; but as one who takes a deep interest in the sociological as well as the scenic side of the trip. A keen observer, some of his impressions of this remarkable people are extremely interesting at a time when their presence in this country is the subject of so much debate, and about whom, in spite of their permeation of the Pacific coast, the average Canadian knows so little.

The Japanese People.

Mr. Crease is evidently a firm believer in the motto which advises "When in Rome do as Rome does." For during his stay in Japan he did not frequent the European inns and hotels, choosing rather to put up at the native inns and eat the native fare in order to get a deeper insight into the customs and manners of the people. This while it resulted oftentimes in a certain amount of inconvenience and a little unpleasantness, amply repaid the traveller in the impressions he was able to carry away.

Mr. Crease was found to be, spread well over the country. There were very few lonely tracts of land as there are in most countries to-day, where the call of the cities has combined with the gregarious instinct of mankind to rob the land of its tillers and cultivators. In Japan, though many of the big cities are very thickly populated, the country districts are also well tenanted and magnificent fertility is the natural result. An abnormally large number own land, and in that they have a great natural aptitude for cultivation, an average landscape gives the impression of nothing less than a great garden where crops are in rich abundance, and flowers and trees are thickly larded over the ground.

One of the most prominent traits of the Japanese, as has often been noted, is their gaiety of heart. Their children are the happiest appearing in the world. The petty ills of life do not disturb the equanimity of the Jap, and though he sometimes grumbles, he never repines. Mr. Crease never once witnessed, during the whole of his stay in the flowery land, a single act of violence, nor heard a single angry word. He was also struck with the apparent lack of poverty everywhere evinced. In the whole course of his itinerary he met with but few beggars and these were in the city of Yokohama. "The majority of the people," he asserted, "looked well-fed, healthy, active and lithe. The police in the Japanese cities have an extraordinary easy time."

National Pride.

The national pride of the Japanese is world known, and it is something that is the possession of the poorest of the poor as well as of the bluest-blooded aristocrat among them. Mr. Crease observed in this connection that there was considerable feeling amongst the people against the anti-Japanese legislation in California; but on interrogating them he received the impression that they were waiting with their usual stolidism to see what the American people as a whole would do, believing that their own statements would be able to reach up to the government in Washington in a way that will be satisfactory to the people of both countries. Mr. Crease also observed that extreme politeness and courtesy are part of the equipment with which every Jap seems to face in battles of life. Throughout his journey their treatment of the travellers, both in the inns, on the railways, and in the streets, and roads was above reproach. In all forms of civility they are unrivalled.

Met Hon. James Bryce.

After walking from Ikao to Lake Haurana, Mr. Crease and his companion met Right Hon. James Bryce, late British ambassador to the United States, who had also walked, together with Mrs. Bryce, right up from Ikao. As a proof of the great activity of the well-known diplomat, Mr. Crease states that Mr. Bryce walked to the Haurana

We Mean Just Exactly What We Say That We Are Clearing the Balance of Our SUMMER SUITS

at Half-Price

We put it strongly, because we do not want you to deceive yourself into thinking that there is any catch, because every garment is marked in plain figures with the price at which they sold all summer. You do your own figuring and buy them for just half the original selling price. You select from as good clothing as is produced in Canada, and also from the high-grade American clothing, Hirsch-Wickwire and Alfred Benjamin. Don't you think you had better investigate?

temple, down the other side of the mountain, a distance of 1,200 feet, back up the ascent and down again to Ikao, a distance of fifteen miles of hard walking. In Yokohama the local traveller attended a reception to Mr. Bryce.

Itinerary of the Journey.

From Tokyo the travellers went by train to Nikko, where they delighted their eyes for several days with the gorgeous temples and groves of cryptomeria, for which the place is famous.

From Nikko they walked to Lake Chusen, the most beautiful spot in the Nikko mountains, which enclose the mausolea of the two greatest of the Tokugawa "shoguns." The mountains are clothed with magnificent vegetation and everywhere they echo the voices of the waterfalls and rivulets. Here the travellers also noticed a spring of water springing sheer from the middle of the cliff—a most unusual sight.

They crossed the lake in a boat and blazed a trail over the mountain (their luggage being packed on the backs of Japanese), and entered a treeless district descending at last to Ashio, where are some of the finest copper mines in the world. Through the courtesy of the management Mr. Crease and his friend were taken through one of the mines. They are operated in a most up-to-date and efficient manner, most of the machinery being driven by electric power.

Beautiful Scenery.

From thence they walked to Honoma through perfect scenery and along a road that winds high above the river to Waterside. On the way they passed many villages, where silk workers indulged in unremitting toil from early morning till late eve, spinning from the cocoons. All the houses and the people were wonderfully clean, the rooms and equipment being as shining as the fittings of a man-of-war.

The travellers took train to Mayabashi, a thriving Japanese city amazingly full of children. The children used the streets as playgrounds, there being an entire absence of wheeled vehicles pulled by animals; their places were taken by the rickshaw men.

Mr. Crease and his companion went from Mayabashi to Hot Springs and the favorite resort among the hills of Ikao, from whence they took the lanes and paths to Haruna Lake, where they met Mr. Bryce. Thence to Mitsuoka, to which they blazed the trail on a day when the mercury was trying its best to lift the lid off the thermometer, and came in sight of the famous Mt. Fuji mountain, with its most curious formations.

After staying in this district for a few days Mr. Crease took train to Yokohama, and stayed for some time at Kio, the old capital of the country, where the travellers saw a great school of arms in progress. Here also they visited the old Buddhist monastery of Kiyoguan, where they were hospitably received, and stopped the night in an old world atmosphere of peace. At Gifu they witnessed fishermen fishing with cormorants. They would place the

and new long back effects with smart tail-
ored or fancy collars, elegantly finished and
trimmed. Smartly-tailored skirts in plain
styles or gathered. In all sizes. Ranging in
price from \$75 to **\$25.00**
—First Floor**Home Treatment for
Removing Hairs**

(Beauty Culture.)

Elaborate and expensive treatments
for removing objectionable hair or
fuzz are not nearly as satisfactory as
the simple and painless method which
any woman can employ in her own
home. This consists of a paste made
with a little powdered delatone and
water, which is spread on the hairy
surface for 2 or 3 minutes, then
washed off, after which the skin is
rubbed and it will be free from hair
or blemish. This is quite harmless
and the cost is nominal.
Any woman can beautify her eye-
lashes by applying pyroxin at night
with thumb and forefinger. Thin
eyebrows grow thick and glossy if
pyroxin be rubbed on occasionally. Be
cautious and don't get any pyroxin
where no hair is wanted.**SCRAP BOOK**One of the queerest of epitaphs is
that in the Glastonbury, Conn., cem-
etery, which recounts the death, 191
years ago to-day, of Mercy Hale, the
victim of "a clap of thunder." The
memorial states that:
"Here lieth the body of Mercy Hale,
the wife of Thomas Hale, Jr., who de-
ceased August 21st, 1713, aged 39
years. Here lies one whose life thras-
tles against the traditions of the
Hale family, it was not altogether mis-
leading to state that "a clap of
thunder" was responsible for the pass-
ing of Mercy Hale. The story is that
a tremendous cannonade from the
clouds dislodged a brick from a chim-
ney, and that in falling it struck and
killed Mercy Hale.The Swedish royal house of Bernad-
otte had its beginning 108 years ago
to-day, as it was on August 21, 1810,
that Marshal Bernadotte, formerly Na-
poleon's general and the descendant
of a peasant family, was proclaimed
prince royal. His descendants still rule
over the destinies of Sweden, and fewof the European royal families have
enjoyed a greater popularity among
their subjects.**FIRST THING**The first general organization of
labor unions in America was effected
at a meeting held in Baltimore forty-
seven years ago to-day, with delegates
in attendance from sixty cities of the
United States and Canada. The Na-
tional Labor Union was the name ad-
opted for the body, which, at this con-
vention, formulated the first demand
for an eight-hour day. Conventions
were afterward held in Chicago, Pitts-
burg, New York and Philadelphia, and
in 1872, at Columbus, O., the union
nominated a candidate for president of
the United States. This political move
caused the disruption of the union,
which, in 1869, has assumed the name
of the Knights of Labor. In 1881 the
movement was revived and a conven-
tion was held in Pittsburgh, which re-
sulted in the founding of the Federa-
tion of Organized Trade and Labor
Unions of the United States and Cana-
da. In 1898, at a convention held in
Columbus, a more perfect plan of or-
ganization was adopted, and the title
was changed to the American Federa-
tion of Labor. The first of the great
unions now affiliated with the federa-
tion was the International Typog-
raphical Union, instituted in 1862. The
last makers were the next to organize,
and the iron molders and cigar makers
soon followed the example.**LAURA B.** You will be surprised
how long and curly your eyebrows will
grow after a few applications of py-
roxin at night, and if eyebrows are
short and "straggly," rub a little
pyroxin on frequently with forefinger.
This simple treatment is a great beau-
tifier, but use care and don't get any
pyroxin where no hair is wanted.**Midnight Excursion.** Be sure and
take in the trip on Hinton's Electric
launch out on the Straits of Georgia
to-night. Leaves Empress steps at
8:30 p. m. Fare 25 cents.**LADIES!**Owing to a general impression gained by a good many ladies that the
"Ladies' Sample Suit House" (being upstairs) is a wholesale house, we wish

TO-DAY IN CANADIAN HISTORY

Major-General F. D. Middleton issued his famous "address to the people of Canada" twenty-three years ago today, explaining the charges that had been made against him as an outgrowth of his conduct of the campaign against the Metis rebels in 1885. It was alleged that furs belonging to the rebels had been "confiscated" and that, with the General's permission, they had been divided among the staff. In his address General Middleton declared, "As to my share, I never received it, asked for it, or thought about it afterwards." As a result of the agitation Sir Frederick resigned as commander of the Canadian militia and returned to England, where he was received with every honor and was given the post of keeper of the crown jewels in the Tower of London.

Ogle Robert Goran, who established the order of Orangemen in Canada and was its grand master for many years, died thirty-seven years ago today. He was born in Ireland in 1776 and edited a paper in Dublin before coming to Canada in 1829. He served against the rebellion of 1837 and was a member of parliament from 1834 to 1841. He wrote several works on Orangism, and until his death was prominent in the order.

Louis Philippe Brodeur, minister of marine and fisheries in the Laurier government, was born at Beloeil, P. Q., fifty-one years ago today. He was educated at St. Hyacinthe and Laval and was called to the bar in 1884. He began his service in the House in 1881, became Speaker in 1908, minister of inland revenue in 1904, and minister of marine in 1906.

During the unsettled years when the Revolutionary war was still in progress it was no easy matter for the rulers of Canada to keep order in the "Indian countries," whence drawn the furs which were still the material of one of the most "essential" branches of trade. From time to time the savages, pillaged the traders who ventured amongst them, whilst the traders themselves often sorely abused the privileges granted to them, and, according to Governor Haldimand, who kept a close watch on them, "did many things injurious to the King's interest and likewise to the reputation of the trade."

In the summer of 1782 trade conditions had reached such a pass that a commission composed of Lieutenant-Colonel Henry Hope, Sir John Johnson and James Stanley Goddard, was appointed to inquire into the state of the Indian trade and of the military posts on the lakes. They left Montreal on August 21st, and reached their destination—Mackinac—on September 15th, having made by lake and river, an arduous journey of two hundred and fifty-one leagues, with no less than thirty-four carrying places; the shallowness of the water and rapidity of the current in many of the rivers rendering it impossible to use anything but bark canoes.

A visiting bishop was arguing with a friend of his on the desirability of attending church. At last he put the question squarely: "What is your personal reason for not attending?" The gentleman smiled in a non-offensive, intending way, as he replied: "The fact is, one finds so many hypocrites there."

"Don't let that keep you away; there is always room for one more."

WILL LIVE HERE

Miss Jeannette Jeeves and Mr. Victor Rolfe Married Last Evening at St. John's Church.

A very interesting wedding took place last evening at St. John's church, a large number of the friends of the happy pair who attended the ceremony almost filling the church, when Jeannette, the eldest daughter of Mr. and Mrs. Allen Jeeves, of 2810 Rose street, became the bride of Mr. Victor Rolfe, the only son of Mr. and Mrs. Thomas Rolfe, of Fort Street. The Rev. Stanley Ard officiated, and the service was fully choral, the choir meeting the bride at the entrance to the church and preceding her up the aisle. She was beautifully gowned in lustrous white silk crepe de chine, with yoke and sleeves of real lace, the skirt, made in train, being draped at one side and caught with a sprig of orange blossoms. The long bridal veil, embroidered with silk, was fastened beneath a garland of orange blossoms, the bridal bouquet being of white roses and maiden-hair fern. Miss Lillian Rolfe, the bridegroom's sister, was bridesmaid, and Mr. Percival Salloway best man.

Later in the evening a big reception was held at the home of the bride's parents, Rose street. The honeymoon is being spent in Alberni and other parts of the island. On their return to Victoria Mr. and Mrs. Rolfe will take up their residence at Seaview avenue.

PRISONERS BROUGHT HERE

Forty Men Arrested at Nanaimo Come Down on Afternoon Train for Safe-Keeping.

Nanaimo jail is proving all too small for the many prisoners who are being gathered in by the provincial police in the strike district, and it has become necessary to distribute them around among the other jails within easy reach of that centre.

The first lot to be brought here will arrive this evening, when forty men are to be escorted down on the train from the coast city. They will be in charge of Captain Byng-Hall, of C company, 83rd Fusiliers, and thirty special constables. Nothing is known here as to what arrangements have been made, but it is likely that the men will be taken off at Russell station and driven across the city to the jail.

Since the destruction of a portion of the jail by fire the accommodation is less than normal, but at the present time there is room for several more prisoners than are undergoing their sentences there. It is presumed that the most of the overflow will be taken care of in Vancouver and New Westminster and on the prison farm at Burnaby.

It is understood that the men in the Nanaimo jail have been complaining of the crowding there, it being necessary to put three men in one cell, and in some cases unruly men have been put in the cell with men serving their time.

BROKE INTO POUND.

Buda Singh Took His Wandering Cows From Their Legal Custodian.

It cost Buda Singh \$10, with \$20 costs, to-day to learn that the owner of animals has no right to take away his cattle without the consent of the pound-keeper.

Frank Clough, pound-keeper, testified that on Tuesday night he got word of two cows trespassing on a garden on Cedar Hill road, and impounded them. At five o'clock yesterday morning he got a telephone call asking about the cows, and about an hour later he was aroused by a noise in the yard. When he got out the cows had gone, and he caught up with them in charge of the accused on Hillside avenue. Buda Singh wanted to pay him the pound fees there and then, but he refused to take them. They were paid in the afternoon and the cows taken away. The person who called by telephone was told that the pound would be open at eight o'clock.

John Broomehead, assistant pound-keeper, said that one of Buda Singh's cows were in pound on Saturday week. The accused told a girl story of seeing the pound-keeper milking one of the cows and calling to him over the fence not to do that and that he would pay the pound fees. He opened the gate and the cows ran out, he said.

Remarking that he did not believe Buda, the magistrate imposed the fine.

COSTS \$2,500 DAILY TO KEEP TROOPS OUT

Maintaining Regiments in Strike Area is Expensive Matter

At the lowest estimate the cost of keeping the militia in the field in the strike district is about two thousand five hundred dollars a day, which will have to be borne ultimately by the several municipalities concerned.

It is laid down in the Militia Act that the rates of pay to be paid by the government and collected from the municipalities, by process of law, if necessary, shall be as follows: to every officer, warrant officer and non-commissioned officer, the rates prescribed for their several ranks in case of active service; for every man, \$1 per day; for every horse actually and necessarily used by them while on service, \$1.50 per day.

In lieu of subsistence there is to be paid \$1 for each officer and fifty cents for each man, and in lieu of forage fifty cents for each horse. In addition there is the cost of transport, lodging and stabling to be provided.

As there are over nine hundred men on duty in the strike district their pay will come to some \$1,600 a day, subsistence some \$450 more and transport probably the same.

There are three city municipalities concerned in the matter—Nanaimo, Ladysmith and Cumberland. There will possibly be lengthy litigation before the federal government recovers the cost from these, as there will be all sorts of legal questions as to who called out the troops, what time was spent in each place or within the municipal limits and the like.

There is an impression in Nanaimo that the troops were ordered out on the request of the attorney-general before the actual requisition by the mayor, or a magistrate, and two justices of the peace was received.

If that should be so it would be made a ground for resisting the demand for repayment by that city and probably by the other municipalities. So far no information has been available as to who really signed the requisition which the commander of the troops in the district is supposed to have before he issued an order calling the regiments out for active service.

In Nanaimo every magistrate has denied that he was one of those who signed. Whether anyone in Ladysmith asked for the militia to be sent to that city, or whether the one request was made to serve for all, is puzzling residents there.

DAILY MALICIOUS RUMOR.

It has come to our notice that some party or parties have been circulating a report to the effect that our business is in the sheriff's hands, which of course is absolutely untrue.

While we hesitate to believe that the report is the outcome of some malicious tongue, our sense of humor will not permit of our seeing the joke as it reflects on our business reputation. We therefore take this opportunity of stating that our business was never in a more healthy condition than at present and take pleasure in referring interested parties to the Imperial Bank of Canada, where we have done our banking ever since we started in business, or to Bradstreet and Duns Commercial Agencies of this city.

In order to protect our business reputation we are forced to state that we will prosecute any party found circulating these or similar reports.

Yours truly,

FITZPATRICK & O'CONNELL

CURSED THE MILITIA

Railway Employees Who Used Foul Language Men Who Were Embarking is Fined.

For using obscene language towards the troops which were being sent up to Nanaimo on August 15, Malcolm Rodger McQuade was to-day fined \$10. He pleaded "guilty under extreme provocation," and assured the court that, being a militiaman himself, his remarks had no reference to the mission of the troops.

Major A. G. Sargison stated that on the evening the militia marched to the station to go to Nanaimo someone remarked that a disturbance was being raised at the other end of the platform. He walked towards the engine and stood around for a while. The accused came along, looking towards the cars and using most disgusting language. There were several ladies standing about.

Magistrate Jay—"Who were the words addressed to?"

Major Sargison—"The policeman told me it was to the militia in the cars. It was beastly, filthy language that he was making use of."

McQuade said he did not remember using an expression given by Major Sargison, but he would admit using such words as at all, he said, was that he was coupling up the air hose and when he came along where the militia were they blocked up the way.

"So far as that," he added, "I would not use bad language towards the militia because I have been a militiaman myself for six years. But when they blocked my way I got angry and began saying 'Hay foot, straw foot' and one man struck me over the shoulder with the butt end of his musket. I am sorry I said what I did."

The magistrate told him that there had been no excuse for the use of such language as had been mentioned and imposed the fine stated.

Asiatic Exclusion.—There is a meeting of the Asiatic Exclusion League called for this evening in the Liberal rooms, Cormorant street, to discuss the general question of the influx of Orientals into the province.

TO MEET MEN.

Management of Pacific Collieries Will Consult With Miners' Men Choosing Committee.

A committee of the miners of the Pacific Collieries at South Wellington, it was stated this afternoon, is to meet the management to discuss the situation. Mr. Tonkins, managing director of the collieries, has consented to meet the men. The men's committee is to be chosen to-day and the meeting with Mr. Tonkins will in all probability take place to-morrow.

ASK MORE MONEY

City Council Will Consider Request of Jubilee Hospital; Carnival Finance.

The extra calls on the Jubilee hospital, which are forcing the directors to apply to the city for a larger contribution will be one of the subjects taken up by the finance committee of the city council at the special meeting to-morrow. The matter has already been considered in a general way.

The city authorities of the province, like the government, contribute to the hospital maintenance, but under the present situation the whole case will have to be reviewed in the light of experience to-day.

Another subject which is to be considered is the carnival finance, the committee having applied for assistance to meet the deficit.

The special meeting of the council on the waterworks question takes place to-morrow evening, when it is expected the whole subject will be gone into. A wide range of opinion has to be considered, and a policy settled before any progress can be made on the Sooke undertaking.

MAY SUGGEST EXPERT.

Amendment Will Probably Be Offered When City Lock-up Question is Considered.

When discussion is renewed on the jail question on Monday by the city council, it is understood that an amendment to the report of the majority will be moved. The amendment provides for the appointment of a committee to collect evidence on modern lockup methods, or alternatively for the calling in of an architect, with expert knowledge of jail construction, to recommend both site and class of structure.

The question of whether branch stations are to be maintained at some future date, or the provision of a headquarters building with police station, is to be alone considered has yet to be decided. All will turn on the nature of the amendment, a single vote either way is likely to turn the division when the subject is reconsidered.

OBITUARY RECORD

The death occurred last evening of Alice Ada Mosley, aged one year and seven months, the infant daughter of George T. Mosley, of Cordova street. The body will be sent by Hanna-Thomson funeral parlors to Salt Spring Island on Saturday for interment.

The funeral of Mrs. Sarah M. Gowdy, late of 78 King's road, took place yesterday afternoon from the family residence, a large number of the deceased's friends and relatives being present at the services, and many beautiful floral tributes covering the casket. Rev. Dr. Scott officiated, and the following acted as pallbearers: Messrs. Frank Campbell, R. H. Nunn, J. Pullen, Arthur Reestel, George Prior and E. S. Geiger.

Mrs. Florence Tabitha Essery, wife of Samuel J. Essery, residing at Finnelly road, Cadboro Bay, passed away at the Jubilee hospital last evening. The deceased, who was forty years of age, was born in Eastbourne, England, and had lived in the city for three and a half years, coming here from Alberta. She leaves to mourn her loss, her husband, three children, and four brothers in Colborne, Ontario, and two sisters in England. The funeral arrangements will be announced later.

The death occurred yesterday of George Ryerson Whitfield, the two months old son of Mr. and Mrs. A. J. Whitfield, of 223 Thistle street, Oak Bay. The funeral will take place from Sands & Fulton's parlors to-morrow afternoon at 2.30. Interment at Ross Bay.

The death occurred on Tuesday evening of Arthur Osborne, of 552 Cadlamona avenue. The deceased, who was 32 years of age, was born in Nevada City, California, and had lived here for the past eleven years, being survived in the city by his father and brother and a sister, Mrs. J. N. Calwell. The funeral will take place from the Sands-Fulton parlors to-morrow at 2.30, when Rev. Dr. Scott will officiate.

Troops Are Moved.—Anticipating trouble at Cumberland two companies of the Seaforth Highlanders were sent up from Nanaimo to Union Bay and Cumberland yesterday afternoon. The force left there was not thought to be large enough in case of further rioting breaking out.

Trials in Ladysmith.—The Ladysmith men who have been arrested in connection with the strike troubles were given a preliminary hearing in their own town yesterday, and remanded without bail. They were taken back to Nanaimo last night. Parker Williams, M. F. P., believing that the men would be given a hearing in the coast city, had gone there to be present, and so missed the proceedings, which were purely formal.

Chose Site.—The site for the Made-in-Victoria exhibit for the Fall Fair was chosen this morning by Dr. Tolmie, president of the Agricultural Association, and George Sargison, secretary. W. A. Jamieson, representing the Manufacturers' Association, and Aldermen Cuthbert and Porter, representing the city council, were also present.

The ground chosen was a strip 90 feet by 200, just to the right of the main gate of the Fair grounds. Work will be commenced immediately on a structure which will cover the whole of the site. The Made-in-Victoria building will replace the unsightly structure now contiguous to the main entrance.

SPECIAL MEETING IS SET FOR TUESDAY

School Board Has Received Report on Hollywood School Plans

A special meeting of the school board to consider the Hollywood school plans was expected to be arranged for this week, but owing to difficulties in getting the trustees together the meeting has been set over till Tuesday. The report of W. B. Young on the plans is in the hands of the board, and it will then be dealt with.

Almost all arrangements have been made for the opening of school on Monday, but there will be some delays while furniture is arriving for the new schools. The formal opening should be arranged for the Burnside and Oaklands schools by the date that the board meets. Owing to the pressure on accommodation at all the schools, the policy of temporary rooms has to be perpetuated.

Whatever views may be taken on the subject of the education of Chinese, the determination of the board to make the children in the Burnside and Oaklands schools by the date that the board meets. Owing to the pressure on accommodation at all the schools, the policy of temporary rooms has to be perpetuated.

The new schools are receiving very favorable comment from visitors. They are being praised in general greatly. Particularly at the High school is the assembly hall, now taking shape, being admired.

It is located immediately opposite the main entrance, and on the ground floor will seat over 500. A balcony with seating capacity for 300 is entered from the floor above. A stage 34 feet by 15 feet with two ante rooms is already in place, and the floor is given a slope to the front in order to allow an unobstructed view of the stage from all parts of the hall.

The architect, C. Elwood Watkins, explained to the Times' representative on the ground yesterday that the room is to be finished in an attractive fashion, the walls being broken up into panels by pilasters with ornamental caps and bases. The ceiling will be formed into panels with heavy plaster beams and cornices.

There has been some little delay in construction at the High school on account of the fact that the granite cutters are out in sympathy with Vancouver operatives, but Dinahale and Malcolm, the contractors, have a large force at work and some of the classrooms are almost ready.

**Stubborn Resistance
TO SELLING PRESSURE****Lowering of Steel and Iron
Products Induced Inquiry
for Finished Products**

(By F. W. Stevenson & Co.)
New York, Aug. 21.—While market
failed to fully hold its level, it noneth-
less during the session offered stub-
born resistance to selling pressure. The
Mexican news was somewhat more
favorable, indicating as it did that the
recent reports circulated were exagger-
ated. However concern is still expressed
over the outcome, and it is generally
realized that any false move will
probably result in a serious state of
affairs.

The market ignored crop news and
the strength of the agricultural com-
modity markets, particularly cotton,
but some attention was paid to the low-
ering of steel and iron prices had induced
an increase in inquiry for finished
products.

**PRIVATE CABLES ON
WHEAT CLAIM BIDDING**

(By F. W. Stevenson & Co.)
Chicago, Aug. 21.—Private cables late
in the day claimed bidding in wheat.
Leaders in cash time reported im-
proved demand. Export clearances for
the day were nearly 1,200,000 bushels,
and have averaged about as much for
a period of three days. Reports from
the Canadian crop for the past two
days favorable, claiming wheat filling
well and harvest will be in full blast
next week. Outside markets showed
fully as good gain for the day as Chi-
cago at half cent. It was a checked
day for corn trade with several rather
sharp turns in the market.

GEOLOGISTS ARE

AT NELSON TO-DAY

One Party Already in Province; Other Excursion is at Banff

Wm. Fleet Robertson, provincial mineralogist, has returned to Victoria from Toronto, where he attended the twelfth International Geological Congress which was held in that city during the week of Aug. 7-14. In point of number of countries represented the twelfth session led, for the highest previous record was that of 36 in 1910 as compared with 45 in 1913. In passing it may be mentioned that the twelfth session was held in Canada at the invitation of the Dominion government, the government of the province of Ontario, the Canadian Mining Institute, and the Royal Society of Canada.

During the congress, Mr. Robertson says, the sessions were held at the University of Toronto, the large and particularly suitable buildings of which were placed at the disposal of the congress, even to sleeping accommodation in dormitories and supplying meals from the kitchen. These each afternoon a number of Toronto ladies in turn served tea in the university quadrangle, this break in the business proceedings proving very agreeable and popular. Generally four different sections of the congress held meetings at the same time, the various interests thus having due attention, these meetings being held in the lecture rooms, while all big meetings were held in the University convocation hall. The business of the congress was, therefore, much facilitated by these convenient arrangements, which included a bank, post office, and a corps of cadets in red uniforms as pages.

Aside from the business for which they had gathered from so many different parts of the world, there was much in the way of instruction and entertainment for prior to the formal opening of the congress, there had been well-attended excursions to various parts of the Maritime Provinces, Quebec and Ontario, while during the week of the sessions there were trips to Niagara Falls and other places offering special attraction to those in attendance. While the week-end excursion to Muskoka lake, when many of the delegates and members were the guests of G. G. S. Lindsey, K. C., of Toronto, chairman of the congress finances committee, was decidedly enjoyable, the big banquet given in the Toronto armories on Wednesday evening, Aug. 13, was the outstanding feature of the plentiful and varied entertainment to which the visitors were treated. Two large tents or marquees were suspended from the roof of the big building, these together forming an immense canopy under which tables were set for the 500 or more who were the guests of the president and executive committee of the congress on this notable occasion. Banks of evergreens as a background and soft green carpets on the floor, added greatly to the good effect. At a long table at the head of the marquee sat the president and the most distinguished guests, while the remaining hundreds were accommodated at numerous tables in groups of from ten to twenty. The arrangements were all that could be desired, and the courses were so served that all hot viands came direct from the gas ranges in the specially built kitchen in the building, while dessert was excellent in both variety and quality, and the wines were so good as to draw from those who drank them much commendation.

Of the great interest and value of the papers and discussions, especially on the chief subject to have the attention of the congress, namely, that of the "Coal Resources of the World," Mr. Robertson speaks with much appreciation. The programme covered a wide field of investigation, research and exchange of views. Much of the valuable information elicited will in due course be available to members of the congress.

The excursions to western Canada, of which there are two, are now approaching the Pacific, C2 being due to reach Nelson to-day, after having come through the Crow's Nest country, and C1 to be at Banff on the C. P. R. main transcontinental line. With very few exceptions, all those whose names were included in the list printed on page ten of last Saturday's Times, are in one or other of the two parties, while there have been slight accessions of numbers.

Excursion C2 has the following officials traveling with it: Leader, B. W. Brock; associate leader, Jaa. McEvoy; secretary, H. E. T. Haultain; assistant secretary, H. Frechette. There are in this party some 35 members, and they represent 21 different countries. The Hon. Louis Coderre, Dominion minister of mines, is with this party, which is due to arrive in Victoria next Monday afternoon at 2:30.

Excursion C1 has its officials: Leader, F. D. Adams; associate leader, J. B. Tyrrell; secretary, J. McLeish; assistant secretary, S. H. DeSchmidt. This party numbers 115 members, representing 16 countries. It is scheduled to arrive in Victoria next Tuesday morning, soon after seven o'clock.

Tuesday, August 26, is designated in the official programme as "Victoria Day." This is the only city where both parties spend a day together after having left Toronto. The programme for Tuesday will include a garden party in Government House grounds, to be given by His Honor the Lieutenant-Governor and Mrs. Paterson, in honor of the visitors, among whom are a number of eminent scientists. The general place of rendezvous for the visitors while not on trips about and around the city or at the garden party will be the Empress hotel.

It will greatly facilitate conversation and the interchange of courtesies if those who attend the several gatherings at which the visitors will be met, wear conspicuously a small piece of ribbon—red by those who speak English, blue by those who speak French, and yellow by those who are able to converse in German. Those visitors who do not speak English fluently will thus readily ascertain who are able to facilitate their conversational intercourse with the many they will meet

who are strangers to them. This was done in Toronto, and was found to be of much assistance to those unfamiliar with the English language. It is worthy of note that while at Toronto many of the visitors wore ribbons of two or three different colors, the great majority of Britishers wore red only, indicating a lack of versatility in this particular.

W. Stanley Lecky, of Ottawa, secretary (R. W. Brock is general secretary of the congress) will arrive in Victoria on Saturday morning, August 23, and Dr. H. C. Cooke, who is assistant to

Chas. H. Clapp, will also be here on Saturday. Mr. Clapp is due to arrive either on Saturday evening or early Sunday morning. It is expected that full details of the arrangements for next week's proceedings will be available on Saturday. Meanwhile a few members of the local committee are doing their utmost to ensure the distinguished visitors being warmly welcomed, and that their short visit to Victoria will be one they will remember with great pleasure long after they shall have returned to their respective and widely-separated homes.
